You voted us “ICT Company of the Year”.
The judges said we had “outstanding customer service” and “high levels of innovation for learners with the most complex needs”.

One hundred days to return a product - even if you don't like the colour!

It can be hard to pick the best product for learners with special needs. That's why we offer an industry leading 100 days to return products that are not exactly what you need. There are a couple of exceptions and you will need to have met our generous payment terms (page 105) and return the product unmarked with the original packaging.

Batteries are always included.

We are unique in always including batteries in every device or toy we sell (and there are hundreds!).

The world's leading developer of accessible software

Inclusive are the world's leading developer of accessible software. To assist you we mark all products with switch access with a switch symbol. If you are looking for software exclusively developed by Inclusive that is marked too.

Some or all activities have switch access.

Developed or published by Inclusive.

One hundred pages are not enough!

The Inclusive Technology website has more detail on products including videos and reviews. There is a “What's New” section and “Clearance” bargains too. You can also access your order history, or fill in a VAT exemption form online at the checkout. Overseas customers also have the option of paying in Dollars or Euros. Thanks to Theo (using his I-Device) and Tobii Technology for the cover picture.

Getting you the best price.

We have again negotiated a 20% off deal with AbleNet. It is all being passed on to you. To help you, the 40 products concerned are marked in this catalogue.

20% off
 until
 31/08/14

We price match everything else and if you are spending more than £2,500 we can usually give you a special price. Just call our sales team.

Our support is on hand after purchase too.

Email or call with any difficulties you have in using our product. Help is at hand at support@inclusive.co.uk. Or call **01457 819790** and talk to our technical support team. We have never had automated telephone answering or premium rate numbers, and we never will.

iPads are great for so many with special needs.

Touch sensitive tablets solve so many access problems. Tablets literally put what you want to do, or need to know, at your fingertips. Cognitively they can be so direct that two-year-old toddlers and ninety-two year old grandmothers use them with ease. And handling an iPad raises your "cool" when so much assistive technology once did the opposite.

But there are still iPad access problems for many learners and real management problems for schools. In the early pages of this catalogue we show how to protect or mount your iPad, amplify the sound, store it securely while charging and syncing multiple units. We can provide switch access, mini-wireless speakers, Bluetooth keyboards and joysticks – even an iPad friendly paintbrush or stylus.

Our software is available on iPad and Android too with more than twenty Apps and more being added every month.

Better still you can make your own iPad or Android Apps quickly and easily with the new ChooseIt! Maker 3. You make them on a PC but your students can download them onto their tablets and use them anywhere. The activities you make work on a PC too with all the accessibility you would expect.

Low incidence problems - severe and complex needs – need a global community sharing ideas. We are creating this week by week. HelpKidzLearn is now used in almost every country in the world (still waiting for Mongolia!) and we are building a huge network of special schools and regular schools with special children.

It has never been easier to show what is available and how it can help your learners. In addition to our Information Days across the UK we have regular webinars, online videos, and regular Inclusive Red Alert and HelpKidzLearn email newsletters which go to more than 100,000 people who, like you, share our interest in doing the very best for learners with Special Needs.

Provided by Inclusive's Information Team

The teachers, therapists and technicians from the Inclusive Information Team have extensive experience in using technology to support learners with special needs in a variety of settings.

Videos

We are regularly creating new demonstration and information videos for current and new products. View our videos online using a computer, tablet, iPhone or Smart Phone! Check out our past webinars too.

Webinars

Our webinars are free of charge, fully interactive, live events; you can ask the presenter questions just as if you were in the room with them. All you need to take part is a computer or tablet connected to the internet.

Information Days

Our free Information Days are a great opportunity for educators, therapists, advisors and others working in the field of special needs to come together and see how technology is changing the lives of all learners. Register online today!

Exhibitions

We attend a number of special needs exhibitions, conferences and information days throughout the UK and in the USA and Australia. Why not take the opportunity to visit our stand and meet our Team.

Newsletters

Sign up via our website to receive our Red Alert and HelpKidzLearn newsletters and receive information about new products, product updates, events and special offers!

HelpKidzLearn

HelpKidzLearn – Fun, online educational games and activities for all children. Designed specifically to give additional support for those with special educational needs and learning difficulties.

HelpKidzLearn is already enjoyed by over half a million learners every year! Now with considerably more accessible games and activities which are updated regularly, providing a first class service at a modest subscription.

What is HelpKidzLearn?

- Games and Activities.
- iPad and Android Apps.
- Shop and Accessories.

Visit www.helpkidzlearn.com today and register for **FREE**.

- Regularly updated content.
- Lots of accessible online games and activities.
- Access using a switch(es), touch screen, mouse, joystick, rollerball, or an eye gaze communication solution.
- iPad and Android Apps.

Games and Activities

An extensive collection of activities that can be accessed using mouse and keyboard, switch(es), touch screen, interactive classroom displays, joy stick, roller ball and eye gaze. Ideal for children with a wide range of special educational needs and learning difficulties at a pre-literacy or early literacy level. It is also suitable for early years users.

Readymade learning

HelpKidzLearn is a fantastic way of assessing an individual's needs. There is a great range of activities on the site from:

- Experiential.
- Tracking.
- Early cause and effect.
- Turn taking and so much more...

In the classroom...

HKL offers a complete solution for the classroom:

- Experiential level to encourage pupils to look and listen and giving them time to respond to the activity.
- Cause and effect activities that allow individuals to have some control and make things happen themselves.
- Errorless activities ideal for building confidence and encouraging individuals to have a try. They also provide the perfect opportunity to chatter and develop language.
- Timing skills, wait for something to appear on screen before pressing a mouse and/or switch or touching the screen to get a reward.
- Develop mouse skills and use of a touch screen.

Access

Each activity in HelpKidzLearn can be accessed using a variety of access methods:

- Mouse and keyboard.
- Touch screens.
- Interactive classroom displays.
- One or two switches.
- Eye gaze.

Visit www.helpkidzlearn.com

Over 80 Games and Activities

Early Years

A great selection of early learning activities, including beautifully animated early cause and effect programs designed for both touch screen and early switch users.

Stories

This collection of stories and songs will engage your learners and be lots of fun. Activities such as Counting Songs encourage learners to count from 1 to 5 with a catchy song and a pond full of sharks!

Creative

Have fun creating sandcastles, train tracks, birthday cards, music and works of art.

Games

The games section is by far the most popular section. Learners can expect endless hours of fun and enjoyment from games such as Aunty Maggie's Recipe and Splat the Clowns.

Find Out

Find out about is an exploratory section for games and activities. Explore expressions, the keyboard, numbers, time and other concepts.

- Quizzes and so much more...

Free iPad & Android App

Available on the
App Store

Android Market

Download your personalised learning activities on to your iPad or Android tablet using the FREE Choose It! Maker 3 Apps and then use your learning materials OFFLINE.

For more information visit
www.helpkidzlearn.com/cm3-signup

Use Chooselt! Maker 3 anywhere...

With Chooselt! Maker 3, create, edit or play your activities securely anywhere online via Windows or Macintosh OS X.

Download your activities to multiple iPad or Android tablets using the FREE Chooselt! Maker 3 App and then learn OFFLINE!

'Easy Flow' Editor

With its carefully designed 'easy flow' editor, take a photo with your webcam, record sounds, draw or paint and make an activity with your child or class in minutes. They can all join in and then proudly present it to the rest of the school, family and friends. Chooselt! Maker 3 is an important tool for those learners who respond best to familiar materials, such as pictures of themselves, their families, their classmates and places they know well.

CM3 Access Options

Each activity created in Chooselt! Maker 3 can be accessed using:

- Mouse and keyboard.
- iPad and Android tablets.
- Touch screens.
- Interactive classroom displays.
- One or two switches.
- Eye gaze.

30,000+ Symbols

As well as adding your own images, Chooselt! Maker 3 includes a ready made IT Media Library with over 30,000 symbols and pictures. Make activities using Wigit Symbols, SymbolStix Symbols and Inclusive Technology's pictures.

Progression and Achievement Recording

Every Chooselt! Maker 3 activity you create will automatically record the learner's progression and achievements

based on the questions they have answered. These results can be saved for your records or shared with the learner's friends and family.

Prices are for a 12 month subscription to *Chooselt! Maker 3*.

iPad & Android Apps

More than 20 motivational Apps created by HelpKidzLearn specifically for children. Carefully designed to meet a range of special educational needs including switch access for those with physical disabilities.

Big Bang Pictures

Developed in conjunction with specialist teachers in the field of visual impairment, the activities have been specially designed for use with children with low vision, including those with cerebral visual impairments and complex needs.

High contrast animated images and great sound effects designed to provide visual stimulation and to develop and assess visual preferences. With a choice of three styles of image and a choice of eight basic foreground and background colours, including black and white, these activities are ideal for assessment of picture recognition and colour preferences. They are also excellent visual activities for babies who really respond to the black and white options and sounds.

Peeping Musicians

Has been designed to encourage early looking/observation skills and develop basic touch and targeting skills. Wait and watch for the musician as they 'peep' from the top, bottom or side of the screen. Simply touch them to make them move centre stage and play a piece of music. There are 20 different characters and instruments to find.

Black background and brightly coloured musicians provide great contrast making this activity very suitable for users with visual and perceptual difficulties. Peeping Musicians is a fun way to help a child to develop hand eye co-ordination and learn to use a touch screen.

Big Bang Pictures ★★★★★

"My 9 year old with cp, cvi loved this very much. It is high contrast, visual no clutter and he loved that if he touched the picture it made sounds or music his favorite was the fish :) I as a parent liked that I can choose the background color and the item color."

Rachelle Gray - USA

Big Bang Patterns ★★★★★

"This is a fantastic app suitable for young children and children with special needs. My son has autism and this is now his favourite app. A great sensory app that will create many happy faces."

Mai Belle - UK

Peeping Musicians ★★★★★

"I have been using this app with one of my students who has moved past basic cause and effect and is now working on targeting. He could play this for hours! Age-appropriate sounds and graphics."

AAC for me - UK

20+ Accessible Apps

A further selection of accessible Apps that provide fun educational learning experiences.

Big Grips®

Protect your iPad in the classroom with Big Grips Frames and Stands

Big Grips are lightweight, durable, easy to clean and hold and are made from a soft squishy foam. A matching stand is available allowing you to position your iPad at a variety of angles.

A protective case for the iPad 2, 3 or 4 – lightweight, durable, easy to clean, easy to grab, comfortable to hold! That means fewer slips, drops and tumbles - and plenty of cushioning just in case. Matching stand available. iPad not included.

- Easy to clean, durable and lightweight.
- Resistant to oils, chemicals, stains, moulds and germs.
- Easy access to all ports and controls.
- BPA, lead, latex, phthalate and PVC free.

Available colours:

n/a	Big Grips Frame for iPad 2/3/4	£24
n/a	Big Grips Stand	£15
n/a	Big Grips Frame & Stand	£37

Buy 15 Big Grips Frames and Stands plus a Big Grips Trolley together and save 5%

Big Grips Trolley

The Big Grips Charging and Syncing Trolley is specifically designed to fit 15 Big Grips Frames with iPads inside and store 15 Big Grips Stands. Choose between two trolley options: charging only and charging plus syncing.

Features

- Handle cut outs to help you steer if you want to move it.
- Lockable doors and on lockable castors.
- Doors fold back 270 degrees for easy access.
- Two A4 size storage trays for your iPad accessories.
- Two years warranty as standard.

Specifications

- Colour: White laminate trolley/blue trays and interior.
- Overall Dimensions: 866mm(W) x 457mm(D) x 1094mm(H).
- Shelf Slot Dimensions: 270mm(W) x 340mm(D) x 46mm(H).
- Top shelf is 90mm(H) and can be used to store a laptop rather than a tray.
- Power: Requires 1 x external power socket (individual iPad mains chargers and USB cables not included).

Charging plus Syncing Option

Intelligent charge and sync technology detects each connected device and determines the optimum charge settings - so each iPad will charge just as fast as if it were plugged directly into a wall socket. Sync connection to a host laptop or PC is enabled by connecting a USB cable (supplied) and using a Third Party power management App (not included). Laptop can be closed, housed and locked within the trolley during sync. iPads are not included. Delivery charge per trolley is £75.00. Two years warranty as standard.

6647	Big Grips Trolley (charge only)	£509
6648	Big Grips Trolley (charge and sync)	£859

Big Grips Hipster

Big Grips Hipster, travel more and worry less with the incredibly versatile carry bag for Big Grips Frame. Easy access to the iPad, use of front and rear-facing cameras, lots of pockets for accessories and stuff, a shoulder strap (of course!), a rubber base for grip and a double-flap Velcro® handle for easily attaching Big Grips Hipster to things like car headrests. iPad not included.

6327	Hipster for Big Grips iPad Frame	£39
n/a	Hipster together with Big Grips Frame	£59

Big Grips Slim

Available colours:

A new slimmer version of the Big Grips Frame, the thin profile is designed to fit in most standard charging and storage trolleys. Dimensions: 20.6mm x 292mm x 231.8mm. Check with trolley manufacturer to ensure proper fit. Matching stand available. iPad not included.

n/a	Big Grips Slim Frame for iPad 2/3/4	£24
n/a	Big Grips Slim Stand	£15
n/a	Big Grips Slim Frame & Stand	£37

Tweener for iPad Mini

Protective case for the iPad Mini – Just like Big Grips Frame, Big Grips Tweener is big, squishy, easy to grab, comfortable to hold, and very grip-able. Big Grips Tweener - it's everything parents and educators demand. Matching stand available. iPad Mini not included.

Available colours:

n/a	Tweener Frame for iPad Mini	£20
n/a	Tweener Stand	£15
n/a	Tweener Frame & Stand	£33

Buddy for iPod Touch 4

The Big Grips Buddy for iPod Touch is lightweight, durable, easy to clean and grab, comfortable to hold and very gripable! Available in four bright colours, it offers you iPod Touch 4th Generation all the protection it needs. iPod not included.

Available colours:

6323	Big Grips Buddy Black for iPod 4	£15
6324	Big Grips Buddy Green for iPod 4	£15
6325	Big Grips Buddy Blue for iPod 4	£15
6326	Big Grips Buddy Red for iPod 4	£15

iAdapter for iPad

A small slide cover on the front of the housing hides the home button from roaming fingers that may close running applications. The iAdapter is also an amplifier, with dual speakers that deliver clean, crisp sound that can be heard in the noisiest setting. It comes with a rechargeable lithium polymer battery, shoulder strap for portability and a plastic stand for tabletop use.

- Threaded inserts on the back for a wheelchair mounting plate.
- Shoulder strap for portability.
- USB charging port.
- Rechargeable lithium polymer battery (for the amplifier only) – 10 hours run time.
- USB charger and cable (for the iAdapter internal battery only).
- Stereo headset jack.
- Plastic tabletop stand. iPad/iPad Mini not included.

6401	iAdapter for iPad 2/3/4 Black	£195
6402	iAdapter for iPad 2/3/4 Grey	£195
6528	iAdapter for iPad Mini Black	£149

GoNow Case for iPad

The silver ergonomically designed GoNow Case has a sleek built-in handle making it easier to carry your iPad 2/3/4. The solid plastic casing keeps

your iPad safe from most bumps and knocks. The design of the case increases the audio clarity and volume of the iPad using no electronics, therefore it doesn't require separate charging. GoNow simply channels and redirects the sound of the iPad to the front of the case. Offering easy access to all iPad features including charging, lock/unlock, volume, power and headphone jack. iPad not included.

6292	GoNow iPad 2/3/4 Case	£65
6659	GoNow iPad Mini Case	£49

Connect for iPad

NEW

Connect for iPad provides accessibility and brilliant sound combined with exceptional design. You can charge and sync your iPad without removing it from the Connect!

- Can be used with all versions of iPad.
- Hifi stereo amplified sound output.
- Wireless and wired switch access with scanning capabilities to control the iPad and Apps supporting voice over controls.
- Sleek outer casing protects against moisture and impact.
- Integrated battery.
- Charge and sync iPad without removing from Connect. iPad not included.

6121 Connect for iPad 2/3/4

£249

Aqua Waterproof Case

NEW

A waterproof case for the iPad 2, 3 and 4. If you need to use your iPad in situations where it needs protection from water then this slim-line protective waterproof case is the solution! iPad not included.

6644 Aqua Waterproof Case for iPad 2/3/4

£29

*Cases for the iPad Air and iPad Mini Retina Display coming soon!
Keep an eye on www.inclusive.co.uk or call 01457 819790 for availability.*

Otterbox Defender Case for iPad

Uses multi-layer technology to provide a high-impact rugged silicone case wrapped in a polycarbonate cover with a foam interior, offering three layer protection for your iPad 2/3/4 or iPad Mini. The rugged silicone absorbs impact from drops, bumps and shocks whilst the textured exterior provides enhanced grip.

- Built-in screen protector protects from knocks and scratches as well as preventing smudges and fingerprints from getting on the screen.
- Silicone port covers keep out dust and debris whilst all functions including volume controls, silent/screen lock, sleep button, home button, camera and charge and sync port remain accessible.
- Integrated shield stand acts as a protective cover on the front or the back and doubles as a stand for typing or viewing. iPad not included.

NEW

6058	Otterbox Defender Case for iPad 2/3/4	£47
6826	Otterbox Defender Case for iPad Mini	£37

Griffin Survivor Case for iPad

Designed to offer ultimate protection for your iPad 2/3/4 or iPad Mini. Griffin's Survivor military-duty case is designed from the inside out to protect your iPad from dirt, sand, rain, shock and vibrations.

- Built-in shatter resistant screen protector deflects wind, rain and dirt.
- Rigid internal frame protects from bumps, shocks and drops.
- Sealed silicone ports block debris and dust whilst all functions including volume controls, silent/screen lock, sleep button, home button, camera and charge and sync port remain accessible.
- Silicone cladding blocks vibration.
- The included multi-position stand clips on and then folds open for landscape viewing and typing.
- Survivor is independently tested to meet military conditions – so it's great for classroom use! iPad not included.

NEW

6738	Griffin Survivor Case for iPad Mini - Black	£34
6739	Griffin Survivor Case for iPad 2/3/4 - Black	£39

LifeProof Case for iPad

The LifeProof iPad Case for iPad 2/3/4 offers waterproof, dirt proof and shock proof protection, giving you confidence to use your iPad anywhere. Great for classroom use!

- Waterproof: withstands being submerged to 6.6 feet for 60 minutes.
- Dirt proof: sealed from dirt and minute dust particles.
- Shock proof: designed to withstand bumps, knocks and drops.
- Lightweight construction with premium high-impact materials.
- Unique combination of materials that allow grip for use when wet or dusty, but will not stick to other objects in your bag.
- Every feature of the iPad is fully accessible and functional, including the volume controls, silent/screen lock, sleep button, home button, camera and access to the charge and sync connector port. iPad not included.

NEW

6911	LifeProof Case for iPad 2/3/4	£79
6912	LifeProof Case for iPad Mini	£69

Kensington Charge & Sync Cabinet

With space for 10 iPads and the ability to stack up to 3 cabinets, the Kensington iPad cabinet is a smart solution for securely storing, charging and syncing your iPads. Each cabinet can be secured to a table with the included mounting plate, or secured with a cable lock (not included).

At the end of the day, or whenever your iPads are not in use, simply slide them into the cabinet. The door opens wide and disappears into the side allowing for easy access. Includes two keys for the lockable door.

To simplify charging and syncing, there is easy access to each iPad 30-pin port or lightning port connector (cables sold separately) and handy USB port to get everything synced up. A single power cord provides charging for the entire cabinet. Built-in cooling fan.

NEW

Compatible with iPad 1/2/3/4 and iPad Mini. iPads not included. **Delivery charge for this item is £10.**

6905

Kensington Charge & Sync Cabinet

£495

iPad Storage Trolley

Choose from either charge or charge and sync options with secure storage for 15 or 30 iPads. This trolley provides space on the top shelf for your laptop, and handle cut outs to help you steer if you want to move it. It accommodates iPads, iPad minis and other USB enabled tablet devices in most cover and case designs. Please check your device and case dimensions before ordering.

Sync option – sync connection to a host laptop or PC is enabled by connecting a USB cable (supplied) and using a Third Party power management App (not included). Laptop can be closed, housed and locked within the trolley during sync.

Features

- Doors fold back 270 degrees for easy access. Lockable and on lockable castors.
- For classrooms, breakout areas and anywhere you need to charge, sync and store iPads.
- Power – requires 1 power socket (15 iPads) or 2 power sockets (30 iPads).
- Delivery charge per trolley is £75. Two years warranty as standard.

Dimensions

Trolley for 30 iPads: 46cm (D) x 100cm (W) x 91cm (H).

Trolley for 15 iPads: 46cm (D) x 60cm (W) x 91cm (H).

Shelf size: 272mm (D) x 210mm (W) x 32mm (H).

Griffin PowerDock 5

Save space whilst storing and charging up to five iPads 2/3/4 or iPad Mini's at one time, from a single power source. The Griffin PowerDock 5 provides each iPad with its own charging port and its own clear backrest. Each charging bay is roomy enough to accommodate your iPad and its case, so you're unlikely to need to remove your iPad from its case to charge it. An illuminated status light shows when Griffin PowerDock 5 is powered up and ready to charge. Also charges other iDevices. iPads not included.

NEW

iRizer Adjustable Stand for iPad

The iRizer is a flexible portable stand for your iPad. It is ideal for positioning your iPad in a variety of ways by offering a wide range of angles and packs away flat for easy storage. The iRizer adjusts from a low 20° which is perfect for typing on the touchscreen to a near-vertical 70° that's ideal for desk use. In total, you have five angles to choose from: 20, 30, 40, 50, and 70 degrees.

The iRizer's two thin plates close together and it fits neatly into its soft cloth carrying sleeve. The whole package is less than ½ an inch thick (11.5 mm). The iRizer also works well with iPads in cases, skins, or bumpers. iPad not included.

6580	iRizer Adjustable Stand for iPad	£33
6759	iRizer - 5 pack	£156

Veho Bluetooth Speakers

Two great sounding wireless speakers. Connect via Bluetooth or plug in. For use with iPads, tablets, smart phones and computers. Bring Apps and music to life.

BassBoomz Bluetooth Speakers

Offers Bluetooth, portable, pocket sized superior sound quality through the powerful built-in speaker. Simply twist and release to activate. Supplied with a built-in high performance Li-ion rechargeable battery. Supports tablets, iPads and all devices connecting through a 3.5mm audio jack.

Available colours:     

n/a	BassBoomz Bluetooth Speaker	£34
-----	-----------------------------	-----

iSlope

When children are using an iPad or other tablet device over a period of time it is important that they are encouraged to maintain a good working posture.

The iSlope is a simple lightweight and robust solution allowing the device to be supported at a suitable angle for easy use. With a non-slip surface and base it can hold the device during use and the top is a suitable size to accommodate a Big Grips or other case.

- Angled surface to encourage good posture.
 - Non slip surface and base.
 - Lightweight and strong.
 - iSlopes stack for easy storage in the classroom.
 - Large enough to fit a Big Grips frame.
- Big Grips Frame and iPad not included.

6746	iSlope Stand for iPad	£29
6758	iSlope - 5 pack	£137

n/a	Sensu Solo Brush - 5 pack	£90

Blue2 Switch

Provides access to all switch accessible Apps and also allows you to make full use of the switch access options provided in iOS7. It

connects to your iDevice via Bluetooth and then can be used to give switch access using its built-in switches or using wired switches plugged into its switch sockets. The Blue2 can be used to give control of the full switch access provided in iOS7 using the switch control options provided in the accessibility options. Once paired with your device it can give access to switch ready Apps using pre-programmed modes 1, 2 or 3 that cater for all existing switch Apps. Modes 4, 5 and 6 are available to allow you to record custom key sequences.

- Easy to pair.
- Three pre-defined modes to work with switch ready Apps.
- Three additional modes for user defined switch control.
- Easy to use with iOS accessibility options to give advanced switch control of your device.
- Rechargeable using charger provided.
- Two built-in switches or use with your preferred wired switches.
- Keyboard toggle switch to give access to on-screen keyboard when required.

6829	Blue2 Switch	£129	£102.20
------	--------------	-----------------	---------

iSwitch

- A new Bluetooth switch which enables switch access to iDevices.
- Powerful performance in this low profile, small footprint (only 75mm diameter) switch.
- Switch adapted Apps including HelpKidzLearn Apps.
- iOS7 Switch Control.
- Music, media, still and video photography.
- Includes 24 pre-programmed functions.
- Works with iPad 2/3/4, iPad Mini, iPod Touch 3rd and 4th generations, iPhone 3GS, 4 and later.
- Bluetooth.
- Charges via USB (Li-ion rechargeable battery).
- One built-in switch with the option for two additional wired switches (not included).

Available colours:

6968	iSwitch Yellow	£125
6969	iSwitch Red	£125
6970	iSwitch Green	£125
6971	iSwitch Blue	£125

APPLICator

- Switch adapted Apps including HelpKidzLearn Apps.
- iOS7 Switch Control.
- Music, media, still and video photography.
- QuickMedia button takes you straight into controlling your music without changing switch settings. For example, press one switch to play and pause music, press another switch to skip tracks.
- Timed play settings – plays music for 10 or 30 seconds each switch press. Great for developing understanding, control and access skills.
- Includes 24 pre-programmed functions.
- Works with iPad 2/3/4, iPad Mini, iPod Touch 3rd and 4th generations, iPhone 3GS, 4 and later.
- Bluetooth. One to four wired switches. Charges via USB.

5978 APPLICator £129

J-Pad Joystick

- A unique joystick interface providing comprehensive access to all iPad functions.
- Switch adapted Apps including HelpKidzLearn Apps.
- iOS7 Switch Control.
- Access to music, media, still and video photography via iOS7 Switch Control.
- Optional touch sensitive buttons to launch and close Apps.
- Works with iPad 2/3/4, iPad Mini, iPod Touch 3rd and 4th generations, iPhone 3GS, 4 and later.
- Bluetooth.
- Charges via USB.
- Joystick access and up to two switches.

6302 J-Pad Joystick £169

SimplyWorks for iPad

- For those requiring completely wireless access to Apple devices.
- Switch adapted Apps including HelpKidzLearn Apps.
- iOS7 Switch Control.
- Music, media, still and video photography.
- Includes 24 pre-programmed functions with It-Switch.
- Works with iPad 2/3/4, iPad Mini, iPod Touch 3rd and 4th generations, iPhone 3GS, 4 and later.
- Bluetooth.
- Charges via USB.
- Supports up to 6 SimplyWorks transmitters (it-Stick, it-Switch, it-Keys).

6081 SimplyWorks for iPad £149

Receive Micro

- The Receive Micro wireless receiver is now available to offer wireless switch access to Android Tablets.
- For anyone who has difficulty 'touching' or 'swiping' with their Android tablet; Receive Micro gives access to most tablets (e.g. Nexus, Sony, Motorola etc) with micro-USB sockets. Not compatible with Android Tablets without a powered USB port i.e. Kindle Fire.
- Simple to operate, it provides wireless connection of any SimplyWorks transmitters (it-Switch, it-Roll, it-Stick, it-Keys), with a range in excess of 10 metres.
- Supports up to 6 input devices with no restriction on the mix. An LED is provided on the front panel for Drag Lock (mouse latching left click) and Caps Lock (keyboard capitals).
- Powered by micro-USB.

6862 Receive Micro £39

Choose from three pre-configured solutions for your iPad 2/3/4 or iPad Mini supplied with either Allen Key or Quick Release joints
See www.inclusive.co.uk for our full range of mounting solutions for iPads.

Bamboo iPad Single

Best for mounting your device close to you on a table or wheelchair: contains an iPad holder, one 250mm tube, joints and a super clamp. iPad not included.

Bespoke mounting solutions - made easy!

Customise your own mounting solution using our virtual mounting solution service!

1. Visit www.rehadapt.de/vms.php and complete the online form.
2. Upload at least five pictures of your environment i.e. your wheelchair or table, including a close up of where you would like the Bamboo device to be mounted.
3. Tell us which device you would like to mount i.e. Communication Devices, iPads, Tablet, Smartphones or iPhones.
4. Let us know your preferred joint type i.e. Quick Release or Allen Key.
5. Within five working days we will email you details of your own bespoke Bamboo mounting solution superimposed onto your image with a detailed list of the parts required and your own specific reference number.
6. If you are happy with your solution, simply telephone our Sales Team to place an order against the reference number provided.

Hover Mounting System for iPad

- Weighs 1.1 pounds/0.5 kilograms.
- 24-inch/60.96-centimetre reach.
- Rigid carbon fibre construction holds stable while extended.
- Three separate locking joints.
- Super Clamp base. iPad/iPad Mini not included.

6562	Hover Mounting - iPad 1/2/3/4	£259	£207.20
6583	Hover Mounting - iPad Mini	£239	£191.20

Table Mount

The special ball joints allow a wide range of easy adjustment of angle and choice of landscape or portrait mode. The base has screw fixing holes to allow it to be firmly mounted if needed. iPad not included.

5712	Table Mount for iPad 1/2/3/4	£79
------	------------------------------	-----

iPad Holder with Variable Friction Arm

The iPad Holder with Variable Friction Arm is our most popular iPad mounting solution.

The VFA arm gives a wide range of adjustments and reach – even upside down. The new iPad holder can be easily positioned portrait or landscape. The clamp can be mounted onto round bars or table edges. iPad not included.

6415	Holder with VFA for iPad 1/2/3/4	£169
6767	Holder with VFA for iPad Mini	£169
n/a	Holder for iPad or iPad Mini	£66

iPad Apps displayed are available to download see www.helpkidzlearn.com/apps

Table Top Suction Mount for iPad

This product provides a strong and stable mounting for your iPad, in either portrait or landscape orientation. The cradle securely holds the iPad steady whilst it's in use and still provides access to all controls and jacks. iPad not included.

5684	Table Top Mount iPad 2/3/4	£79	£63.20
------	----------------------------	----------------	--------

Holder with Clamp

With a wide range of adjustment, the mounting clamp can be fastened onto a round bar or table edge. iPad not included.

5713	Holder with Clamp for iPad/iPad 2/3/4	£79
6897	Holder with Clamp for iPad Mini	£79

iPad Holder with Gooseneck

The flexible Gooseneck arm is great for positioning the iPad. It comes with a clamp that can fit round bars or a table edge. The new iPad holder can be easily positioned portrait or landscape. iPad not included.

6414	Holder with Gooseneck for iPad 1/2/3/4	£135
6766	Holder with Gooseneck for iPad Mini	£135

Adjustable iPad Cradle Mount

Gives you the ability to mount your iPad to a variety of mounting systems without removing it from its protective case.

See www.inclusive.co.uk for full details.

6676	Adjustable iPad Cradle Mount	£89	£71.20
------	------------------------------	----------------	--------

Eye Gaze - say it with your eyes!

For many people who have difficulty physically using a computer, eye gaze technology offers a quick and easy to understand way of accessing your favourite software.

What is eye gaze?

Eye gaze technology is a way of accessing your computer or communication aid. The Tobii systems follow your eyes with amazing accuracy to see where you are looking on the screen. You can then select the item you are looking at by dwelling (staring at the screen for a length of time), blinking or clicking with a switch.

How does it work?

Tobii eye gaze systems work by having lights and cameras that are constantly sending and receiving information. The camera picks up light reflections from your pupils then translates the movement of your pupils into mouse cursor movements. It takes only seconds to complete a one time calibration.

Who is it useful for?

Anyone who can control eye movement and who wants a faster access method. The Tobii systems can track over 95% of users, regardless of eye colour, glasses, contact lenses, lighting conditions or head movements. It is used by people with conditions such as Motor Neurone Disease, Cerebral Palsy, Muscular Dystrophy, spinal injuries, Rett Syndrome and people with profound or multiple disabilities.

See [pages 5 - 11](#) for *HelpKidzLearn* and *ChooseIt! Maker 3* eye gaze enabled software from *Inclusive!*

Tobii EyeMobile

The Tobii EyeMobile allows for cost effective, completely hands-free access to Windows 8 Pro tablets. It gives individuals with physical and communication impairments the ability to navigate, control and access Apps, the Internet, music, e-books, social media, games and more using eye gaze technology. It consists of the Tobii PCEye Go, the EyeMobile mounting bracket, Tobii Gaze Selection and a DELL Latitude 10 Tablet (you can also source your own standard, off-the-shelf Windows 8 Pro tablet of choice).

Tobii Gaze Selection can also be paired with switches for even faster computer access. In addition, Gaze Selection supports touch and mouse access. Designed with mobile computer access in mind, the Tobii EyeMobile is small and lightweight. The integrated table stand lets you quickly set up the device for table top use whilst the versatile mounting plate on the bracket provides the opportunity for mounting. The EyeMobile is powered entirely by the Windows 8 tablet battery. The EyeMobile bracket can be used with nearly any Windows 8 Pro tablet. This gives you the freedom to select a tablet that best suits your needs and budget, and makes it easier to keep up to date with technological developments.

The perfect portable introduction to eye gaze!

6850	EyeMobile Bracket (black)	£300
6851	EyeMobile (PCEye Go & Bracket black)	£2,035
6852	EyeMobile (PCEye Go & Bracket & DELL Tablet)	£2,695

*With **Tobii Gaze Selection** and its **Windows 8 Functions Overlay**, touch gestures, various click types, taps, side swipes, as well as accessing charms and split-screen snapping, are done using only your eyes. With this interface, you are able to directly access all the functions and standard Apps that run on the Windows 8 tablet!*

PCEye Go - control any PC or laptop with your eyes!

For many people who have difficulty controlling a computer, the Tobii PCEye Go provides an easy to use, affordable, portable and accurate eye control alternative.

Perfect Partner!

See page 25 for the Inclusive Eye Gaze Learning Curve software.

Excellent for classroom use!

The PCEye Go runs on standard desktops or laptops using Windows, allowing you to work with any application that is controlled by a standard computer mouse.

Accompanying PCEye is the Tobii Gaze Interaction Software, which eliminates the need for a physical mouse, switch or keyboard. The Control software has two components, Mouse emulation, which replaces the traditional mouse cursor with the user's gaze, and Tobii Gaze Selection. Gaze Selection makes it possible to control your desktop, or any other application, through an intuitive two-step process that reduces the risk of unwanted clicks.

After installing the Tobii Gaze Interaction Software and a quick calibration, you are ready to surf the web, connect with friends online, play games, Skype and even make spread sheets and documents. Simply look at the computer screen and control the mouse cursor with your eye movements, select by blinking, dwelling, using a switch or the unique zoom click functionality.

Features

- Trackbox - the area within which you can move your head is large and gives you the freedom to sit or lie down comfortably, move freely and still maintain eye tracking performance. Should you move outside of the trackbox, the PCEye will quickly find your eyes again and continue to track them. Provides great tracking results regardless of most lighting conditions, eye colour, or if you are wearing contacts or glasses
- Fits on your laptop, desktop computer screen or external monitor.

- Easily attaches and detaches using a smart, seamless magnetic mounting plate and USB connection. No external power supply needed.
- It is lightweight and small enough to be easily transported and used with different computers and in different environments.
- All processing for the eye tracker is done on the PCEye itself, not on your computer. You do not need the latest desktop or laptop in order to use gaze interaction as a computer access method.

Specifications

- Operating system – Windows Vista, Windows 7, Windows 8.
- Tobii PCEye Go – 19" – 24" screens.

To request a quote or place your order please telephone us or email tobii@inclusive.co.uk
Carriage costs are **£17** per order.

Please note: PCs, monitors and laptops are not included with the PCEye Go. You can purchase a PC or monitor separately, please see www.inclusive.co.uk for details.

Tobii I-Series

The Tobii I-12 and Tobii I-15 are speech generating devices that enable effective communication in all forms – from voice output, environmental control and computer access to long distance communication. Designed specifically for users looking for the most powerful, convenient and portable AAC device, the devices are fast, rugged, powerful and support all input methods including; touch, eye gaze*, switch and scanning. They are designed to work in whatever way you wish to communicate – no matter where you are. *Eye gaze interaction is an optional addition, please select when ordering.

Features

- Supplied with Tobii Communicator Premium and Tobii Sono Suite.
- Wake On Gaze and Sleep On Gaze - Put your I-Series device to sleep or wake it up by simply gazing at an "eye button" located outside of the screen.
- Versatile mounting - The wedge design and auto screen rotation lets you stand the device upright by itself for gaze interaction or lay it down for touch interaction, without having to mount the device. Supplied with a reversible mounting plate that supports both REHAdapt and Daessy mounting systems (mounting systems are supplied separately).
- Superb graphics and loud high quality sound.
- Scratch resistant Gorilla Glass.
- 9 hour battery life and swappable batteries.
- Built-in auto brightness adjustment.
- Front and rear facing cameras.
- Built-in Wi-Fi.

The Inclusive Eye Gaze Learning Curve – From Cause and Effect to Communication

The first ever collection of 54 fun and engaging interactive activities specially created to teach early eye gaze access and develop choice making skills.

This collection takes children on the learning curve from assessment and cause and effect understanding through to using eye gaze for communication, learning and leisure. Inclusive Eye Gaze can be used by teachers and therapists as an assessment tool to determine visual skills and potential use of eye gaze and as a progressive teaching tool that provides structure and lots of opportunities for practice at each level.

All children on their first steps with eye gaze can use these activities to improve their accuracy and understanding of eye gaze in preparation for using other communication and learning software.

By using relevant vocabulary, pictures and sounds and lots of variety, the activities will also offer many opportunities for children with additional needs to develop early interaction, communication and learning skills. Most importantly, we hope that our carefully chosen activities will ensure success and motivation at each stage with games that children will love and want to play again and again.

The Inclusive Eye Gaze Learning Curve – From Cause and Effect to Communication

Attention and Looking

Tracking, Locating, Fixating

18 carefully graded activities designed to assess and teach simple access skills and understanding of eye gaze. These fun and meaningful activities can be used with all children on their first steps with eye gaze. They provide a progression of skills from cause and effect to targeting and include customisable activities to cater for specific interests and motivations.

6501

Windows CD-Rom

£150

Exploring and Playing

Take Turns, Explore, Choose Anything

18 fun packed games and exploring opportunities to play on your own and with friends. Assess and improve your targeting and access skills and progress from cause and effect to early choice making. Learn to take turns or do just what you want. You can even make your own music machine!

6502

Windows CD-Rom

£150

Choosing and Learning

Preferred Choices, Linear Choices, Multiple Choices

The Choosing and Learning package is designed to prepare eye gaze users for further communication and learning activities by developing choice making and access skills. Add your own pictures and sounds to extend the 18 activities to your specific communication and curriculum needs.

6503

Windows CD-Rom

£150

You can also purchase all 3 titles for £399

Look to Learn

Look to Learn is a package of forty activities designed for those starting out with eye gaze technology. Each activity develops a different skill, ranging from early cause and effect through to accurate eye gaze control.

Five Areas of Learning

The forty activities are relevant to five key areas of learning and development:

- **Sensory** - teaches cause and effect.
- **Explore** - encourages engagement with the whole screen.
- **Target** - helps improve accuracy of eye gaze access.
- **Choose** - develops choice making skills.
- **Control** - improve eye gaze control.

Progression

Look to Learn provides a progression from early cause and effect activities right through to choice making and game playing. This process develops the eye gaze skills required for alternative communication, literacy development and computer access.

Assessment

Look to Learn has been created to provide the tools needed for assessment:

- **Eye tracking** - where on the screen are you looking? Are you engaged with the content?
- **Targeting** - learning to find targets and fix your gaze on it.
- **Choice making** - introducing early choice making in preparation for AAC.

NEW

Analysis

The built-in analysis tool creates a heat map to show where you have looked on the screen during an activity. Heat maps can be saved, printed and used to measure/record progress.

Learning Resources

Look to Learn workbooks are coming soon. The workbooks will provide record-keeping tools for anyone that is facilitating *Look to Learn* eye gaze sessions.

6695

Single user licence

£360

See www.inclusive.co.uk for more licence options.

Sensory Eye-FX

Sensory Eye-FX is a package of thirty software applications designed for the earliest level of eye gaze computer access. The software is divided into five levels of exploration.

Sensory Eye-FX has been developed specifically with eye control in mind. It is designed to develop early cause and effect skills through fun and stimulating activities. These activities are designed to be used without the need for a calibration. Users can develop their screen engagement, tracking, targeting, selecting and creative skills.

Level 1: Blank Screen Engagement

Blank screen engagement activities allow learners to explore cause and effect - when they look something happens, when they look away it stops. This concept is fundamental to learning eye gaze and needs to be explored in some detail.

Level 2: Object Displacement

Object displacement activities introduce some of the methods of eye gaze such as dwell functions and basic targeting. Here learners may begin to gain greater awareness as to how their gaze proximity activates a response from content in a certain area of the screen.

Level 3: Zoned Focusing

Zoned focusing - an ability to target specific areas of the screen is an important step in learning to control the mouse cursor. At this point we are developing skills necessary to achieve a successful calibration.

NEW

Level 4: Active Exploration

It is important that learners are motivated to engage with the screen. Active exploration activities encourage learners to engage with the wider area of the screen and have fun using their eyes.

Level 5: Controlled Targeting

Controlled targeting activities can help learners achieve greater control, a higher degree of accuracy and a more detailed understanding of the dwell function.

Touch Screen Monitors

Ideal for touch screen software and much more.

22" iiyama Touch Monitor

A very affordable touch monitor from iiyama. The 22" screen makes it a great solution where screen size is important, good for small groups as well as individual pupils.

With high definition and fast touch response including multi-touch it gives the quick and accurate response needed for pupils with special needs. This monitor has a great new feature, when the screen is touched the mouse pointer disappears, taking away a big distraction for many pupils who find the pointer a distraction. Plug and play (Windows 7) makes it easy to set up – no driver to install, very useful when you need to use it with different computers. This monitor is VESA compliant.

22" Widescreen LCD Touch Monitor

Rugged, reliable and resistant to water, dust and grease these new widescreen monitors from ELO are the perfect replacement for bulky outdated CRT monitors.

Each comes with a height adjustable tilting stand to ensure perfect positioning for those in wheelchairs or specialised seating. Easy to use tools allow you to lock out the display buttons to minimise 'fiddling'. Featuring ELO's tried and tested, highly responsive Accutouch Technology guaranteeing complete accuracy with minimum setup or calibration. With built-in speakers delivering high quality sound to match the outstanding picture quality. This monitor is VESA compliant.

Note: There is a delivery charge of £17 per monitor.

ELO Touch Monitors are covered by a 3 year return to manufacturer warranty, provided and administered by ELO.

Please note that this product has a 28 days returns policy.

Inclusive Interactive Plasma Screen

The robust Inclusive Interactive Plasma screen mobile solution is built around commercial grade Panasonic screens. The fully mobile interactive screens come in a range of multi touch options with powered height adjustability. The interactive displays can be supplied on a height adjustable trolley or wall mount.

*Ideal for
young
students*

*Ideal for
Classroom
teaching*

The Inclusive Interactive Plasma Screen, for use in a mainstream or special needs classroom, is available in a range of screen sizes as well as touch options. At the touch of a button the screen can be raised or lowered creating an all-encompassing learning and working environment for all sizes, ages and abilities including wheelchair users.

At full height the Inclusive Interactive Plasma Screen is ideal for presentations, teaching or group displays. Fitted with braking castors the Inclusive Interactive Plasma Screen is easily moved from room to room making it ideal for flexible work spaces and special needs environments.

Safety sensors detect any obstacle in the way whilst being raised or lowered and so avoid damage or injury. The sleek steel frame can raise and lower the screen by 680mm and can be halted in any position.

Adjustable mounting brackets allow the minimum and maximum screen height to be tailored for specific use.

A wall mounted option is also available. The wide, clear viewing angle suits all light conditions with no shadows cast by users or eyestrain from bright projectors.

Features

- Available in 42" and 50" screen size.
- Includes a laptop shelf
- Integrated additional power socket for laptop
- Impact resistant front glass panel.
- Dual or Multi touch options.

6624	42" Dual Touch with Height Adj. Stand	£2,995
6632	42" Multi Touch with Height Adj. Stand	£3,595
6626	50" Dual Touch with Height Adj. Stand	£3,495

Inclusive Tilt and Touch Plasma

The ultimate in flexibility and accessibility. The Inclusive Tilt and Touch Plasma display adjusts for height and angle which combines all the benefits of a height adjustable interactive plasma, with a fully featured touch table.

The Inclusive Tilt and Touch adds a new dimension to the interactive touch displays, the screen can be easily rotated to any angle from horizontal to vertical. The added versatility of tilt means that the Tilt and Touch can be used in situations that, previously, were difficult or even impossible for some users. With its braked castors the Tilt and Touch can be wheeled effortlessly between rooms allowing for flexible use of space. An option with built-in PC is available.

Features

- Available in a 42" and 50" screen sizes and touch options.
- Built-in PC option.
- Impact Resistant Glass.
- Height adjustable from 73cm to 140cm.
- Please call for a demo.

Inclusive Interactive Sensory Centre

The Inclusive Interactive Sensory Centre is a fully mobile low cost immersive sensory centre suitable for learners of all ages.

Software effects include:

Water ripple

Splat

Sounds & Pictures

Particle effect

Scatter

The Inclusive Interactive Sensory centre offers floor projection that responds to body movement when it is detected by the overhead camera. With mood lighting control the centre creates a complete sensory environment by allowing even those with limited movement to alter many aspects of their immediate environment. Using a swipe card any image, video and audio file can be easily added to the many effects available to build up a structured sequence specifically targeted at each learner.

Teachers or therapists can design a programme around a pupil's specific needs and link it to a swipe card for re-use at a later date. Multiple users can be added to the system and programmes can be changed by the simple swipe of a card. With in-built wheels the Inclusive Interactive Sensory Centre can easily be moved from room to room. The camera head lowers for easy access through doorways.

Features

- Requires only minimal movement.
- Can be activated by light.
- Swipe card with user profiles.
- Content suite of software.
- Encourages exploration and fun.
- Customisable content to suit individual requirements.

Helpikeys

Helpikeys is a programmable membrane keyboard which replaces the traditional keyboard and mouse.

It is supplied with five standard overlays which are recognised by the keyboard when inserted under the protective membrane. As a programmable alternative keyboard, Helpikeys can be changed by using one of these five standard overlays, or by using the Helpikeys *Layout Builder* software (included) that allows you to design and print your own keyboard and

mouse layouts. The keyboard can memorise five customised layouts.

The additional configuration settings layout allows you to personalise the response rate, the repeat rate and other keyboard characteristics.

It also includes a programmable five switch interface that can be used for mouse control.

Features

- Dimensions: 460mm x 370mm x 25mm.
- *Layout Builder* software to design and edit custom overlays.
- Suitable for MS Windows XP, MS Vista and Windows 7 64-bit operating systems.
- User guide and removable stand included.

Keyguards available, see www.inclusive.co.uk

Orbitrack

Control the direction and speed of the cursor with a single, soft touch. Orbitrack uses a 50mm control ring to manage cursor movement for precise targeting. Unlike a mouse, trackerball or joystick, no hand or wrist movement is necessary, and unlike a touch pad, the cursor does not have to be driven around the screen by constant finger movement.

- Soft touch, colour coded buttons (left/right click, drag lock and double-click).
- Four speed settings.

Dimensions: 22.5 x 13.2 x 4.5cm.

2296

Orbitrack USB/PS2

£159

BIGtrack

This BIG trackerball has many features that make it ideal for users who don't have the fine motor skills required by a mouse. BIGtrack doesn't require control with the fingertips - a swipe at the ball and at the buttons works just as well. BIGtrack has left and right mouse click buttons located behind the trackerball to help prevent unwanted clicks. It also allows for a second mouse to be connected simultaneously. Also available with two standard 3.5mm switch sockets, allowing switch access to the left click and right click functions. Plastic guard optional. Switches not included.

OPTIMA Rollerball

The wired OPTIMA Rollerball uses durable, optical technology for precise tracking and control of the cursor. Light touch ball movement and stability make it ideal for a wide range of computer users.

Dimensions: 18 x 10 x 8cm.

2294

OPTIMA Rollerball USB/PS2

£109

Roller Plus III

A new low profile robust trackerball with extra functions, useful where the user has significant physical disabilities. The guard avoids unwanted presses but is removable

if not required. Easy fixing to a surface or wheelchair tray. Separate buttons to emulate click, right click and double-click, latching drag as on the Roller and pointer speed control. Another button allows only up and down or left and right movements of the pointer. The buttons can be replaced by switches (not included). Dimensions: 21.5 x 13.5 x 6cm.

6928

Roller Plus III USB/PS2

£275

n-ABLER Rollerball

Especially suitable for improving access for children and young people with some special educational needs, learning difficulties, for those whose work entails long periods of computer use and for older people and others with movement impairment.

Large, high mass, free running ball requires only a light touch. Easy navigation with function buttons. The fingertip control and the need for only minimal hand movement, reduces wrist and elbow fatigue.

Users can work with either hand without having to angle the wrist, and the unit can also be configured for left handed operation. Its large, integrated hand support/palm rest makes work posture more relaxed and less strained. Dimensions: 23.3 x 13.3 x 12.8cm.

1678

n-ABLER Rollerball USB/PS2

£195

n-ABLER Pro Rollerball

Specifically designed for computer users with limited hand control, motor skill difficulties, poor hand eye coordination, limited manual dexterity, involuntary muscle spasms and hand or wrist tremors.

Work with either hand without angling the wrist and it can be configured for left handed operation. The anti-tremor facility can be invaluable for anyone suffering with tremors or involuntary muscle spasms and for older people with movement impairment. Tough, ergonomic design with a large footprint for maximum stability plus easy identification of button functions. Dimensions: 23.3 x 13.3 x 12.8cm.

6051

n-ABLER Pro Rollerball USB

£219

Roller III

A new low profile version of this popular and robust roller which has coloured buttons to make it easier to see which one to press. The removable guard helps prevent inadvertent button pressing. The roller has three switch sockets to allow switch operation of the buttons. USB connector with PS2 adaptor. (Switches not included.)

Dimensions: 21.5 x 13.5 x 6cm.

6926

Roller III USB/PS2

£109

OPTIMAX Wireless Joystick

A unique wireless joystick, ideal for users with motor skills difficulties. Three different handles included. Operating range exceeding 10 metres. Responds to the lightest touch, stable and comfortable. Ideal for use in group sessions or classroom settings. Receiver unit with two additional sockets. Precise tracking and cursor control. Four cursor speed settings. Audible alert for speed setting. Sockets allow the left/right click buttons to be operated using your own switches. Left/right and drag lock buttons. Dimensions: 18 x 10.2 x 12cm.

3171

OPTIMAX Wireless Joystick

£235

OPTIMA Joystick

Responds to the lightest touch for accurate navigation and precise targeting. Three different handles included. Colour coded buttons mounted sub flush to prevent accidental activation.

Sockets to operate left/right click buttons from remote switches. Four cursor speed settings. Audible alert for speed setting. Provides a natural hand rest. Left/right and drag lock buttons. Easy plug and play installation. Dimensions: 18 x 10.2 x 12cm.

3170

6927

Roller Joystick III USB/PS2

£189

n-ABLER Joystick

Especially suitable for improving access for children and young people with some special educational needs, learning difficulties and for older people and others with movement impairment.

It requires only a light touch which, together with the function buttons, makes for easy navigation, selection and manipulation. The n-ABLER Joystick emulates a computer mouse but, with fingertip control and the need for only minimal hand movement, reduces wrist and elbow fatigue, requires far less effort and is less tiring. The symmetrical design enables users to work with either hand without having to angle the wrist, and the unit can also be configured for left handed operation. Its large, integrated hand support/palm rest makes work posture more relaxed and less strained. Dimensions: 23.3 x 13.3 x 12.8cm.

1679

n-ABLER Joystick USB/PS2

£249

n-ABLER Pro Joystick

For computer users with limited hand control. Light touch joystick for easy navigation.

Includes soft ball and T-bar handles for alternative joystick grips. Work with either hand without angling the wrist and it can be configured for left handed operation. The anti-tremor facility can be invaluable for anyone suffering with tremors or involuntary muscle spasms and for older people with movement impairment. Tough, ergonomic design with a large footprint for maximum stability plus easy identification of button functions. Dimensions: 23.3 x 13.3 x 12.8cm.

6052

n-ABLER Pro Joystick USB

£269

Roller Plus Joystick III

Some users with physical difficulties may find it easier to control a joystick than a ball. All the same functionality as the Roller Plus, with a new lower profile. The buttons can be operated by switches. Additional handles (the Soft Knob and T-bar) are supplied FREE by Inclusive Technology. Dimensions: 21.5 x 13.5 x 12.6cm.

6929

Roller Plus Joystick III USB/PS2

£295

4470 it-Stick Starter Pack

£215

SmartNav 4

SmartNav is an alternative to the standard mouse, allowing hands free control of the computer cursor. The user can easily move the cursor around the screen using subtle head movements, by wearing a reflective dot on their forehead. Mouse clicking can be accomplished through a built-in dwell clicking program (AT version) or external switches (AT and EG version).

SmartNav 4 EG

The SmartNav 4 EG is the best solution available for carpal tunnel syndrome, tendonitis, repetitive strain injury and other wrist strain related problems. The EG package includes industry standard input switch supports and original software features.

SmartNav 4 AT

The SmartNav 4 AT package includes industry standard switch supports, dwell-clicking software and an on-screen keyboard, allowing for complete cursor control specifically for people with ALS, spinal cord injuries, muscular dystrophy and other special needs.

3488	SmartNav 4 EG	£250
3489	SmartNav 4 AT	£300

Moozi

A low profile switch joystick for children and adults. Moozi's flat base is just 2cm high, so the user can hold their hand in a natural and comfortable position, making control easier and reducing arm strain and fatigue. It has a smooth, light sliding action so, with the right choice of handle, even young children soon use it with ease. Moozi can be used to drive a wheelchair with Dynamic DX Masterswitch controls. Using an appropriate adaptor it can also operate other switch operated devices, including PC mouse functions. Moozi is simple to position on a tray or table top, using Velcro or an alternative. Available in red, blue or black with gun metal grey base and knob. Available with a variety of interchangeable knobs, Mushroom, T-Bar and Cow Horn bar. Assessment kits available.

n/a	Moozi Base with Knob	£140
-----	----------------------	------

See www.inclusive.co.uk for pricing options.

Zygo Head Pointers

Provides efficient pointing from a psychologically and cosmetically sound perspective - the chin. Unlike forehead protrusion pointers, an out from the chin device allows closer proximity to the item being accessed and reduces the head movement needed to activate such a device. Available in Standard, Tiny Tot and Rear Strap models. See www.inclusive.co.uk for full details.

Now sold with NEW iPad tips!

n/a	Zygo Head Pointer	£240
-----	-------------------	------

Glidepoint Touchpads USB

Glidepoint Touchpads allow you to glide your finger over the touchpad surface and tap (or click the buttons) to perform all input functions. Three desktop touchpads to choose from.

3873	Easy Cat Glidepoint Touchpad	£31
3874	Smart Cat Glidepoint Touchpad	£48
3875	Smart Cat PRO Glidepoint Touchpad	£58

EnPathia

Simple computer access. Consists of a movement sensor that can be attached with a strap to any part of the body such as head, forearm or foot. Movements enable a user to move the cursor, click, drag and drop. A user can even write using an on-screen keyboard. Can be easily configured to suit the individual in terms of range of movement, speed and sensitivity. Use independently or with one or two input switches. Easily shared as each user can have their own customised profile.

5992	EnPathia	£230
------	----------	------

IntegraMouse Plus

A fully functional mouth operated computer mouse, including wireless connectivity. Performs all the functions of a standard PC mouse such as left click and right click and drag and drop, as well as joystick controls and arrow keys make it ideal for gaming. Includes the escape function for all modes (mouse, joystick and cursor). Users can independently activate the escape function (e.g. for media player or computer games) through an easy sip and puff combination. Includes software. Wireless and USB connectivity. Mounting options sold separately.

5725	IntegraMouse Plus	£1,595
------	-------------------	--------

The Simply Works Range of Access Technology

With Simply Works you can have switches, joysticks, rollerballs and toy control devices that simply work together, and without wires. The Simply Works system is a family of wireless receivers and associated access devices (for the technically minded, they use RF technology).

Just connect the it-Receive to your computer and you are ready to use an it-Roll rollerball, it-Stick joystick or control your switch software using the it-Switch. Each connects wirelessly - no wires from your devices to the computer. With a range of 10m (32 feet) these can work from anywhere in the classroom - ideal for including everyone in an interactive lesson. Up to six separate input devices can be used at any one time using a single receiver.

The Simply Works Range includes:

Use up to six devices in any combination with a single it-Receive receiver.

With it-Send or it-Send Pro you can use your own switches with Simply Works.

it-Roll and it-Stick work easily and wirelessly with it-Receive.

For more information about the Simply Works Range visit www.inclusive.co.uk/simplyworks and view the demonstration video!

it-Switch Large or Small

A wireless switch with a unique low, slanted profile. Gives good tactile feedback with no protruding base and can be operated with the slightest movement.

Requires suitable receiver - you can pair this switch to the following:

it-Receive - for computer access. Choose from a full range of options, e.g. spacebar, F7 and F8 keys or left mouse click, quickly and easily with the LED menu on the switch.

Smooth Talker - for two switch message options (page 60).

it-Click-On Plus - for mains device operation (page 56).

it-Control - for battery operated toy control (page 55).

- Choice of red, blue, green or yellow.
- 10 metre (32') operating range.
- Can be mounted using a standard mounting plate.
- 2 x AAA batteries included.

Please specify size and colour when ordering.

Available in red, yellow, green or blue.

Available in two sizes:

it-Switch Large - operating area 125mm.

it-Switch Small - operating area 75mm.

See www.inclusive.co.uk for product codes and starter packs.

n/a	it-Switch Large	£55
n/a	it-Switch Small	£55

Big Beamer Twist

20% off
until
31/08/14

- The Big Beamer wireless switch has a large 125mm activation area.
- Four interchangeable tops included (red, green, yellow and blue).
- Beamers are supplied with their own receiver, so multiple devices can be used in the same room at the same time.
- Effective range up to 9 metres.
- Transmitter and receiver each has 2 x AA batteries included. Available with switch, latch and timer (SLAT).

4063	Big Beamer Twist	£125	£100
4064	Big Beamer Twist with SLAT	£165	£132

For computer access

it-Receive - a wireless receiver and computer interface. Simply plug the it-Receive into a USB socket and you can use up to six Simply Works devices on one computer.

4404	it-Receive	£39
------	------------	-----

Make your wired switches 'wireless'

it-Send - plug any switch with a 3.5mm jack into the it-Send and use it with any of the Simply Works receivers (it-Receive, Smooth Talker, Click-On Plus, it-Control) to make your wired switch 'wireless'. 10 metre operating range. 2 x AAA batteries included.

it-Send Pro - similar to the it-Send, but you can use up to six of your own wired switches. The it-Send Pro automatically sets up switch functions for you when used with it-Receive using the supplied software. You can also set your own custom settings. 10 metre operating range. 2 x AA batteries included.

it-Roll - a wireless rollerball ideal for those with motor skill difficulties. With an operating range in excess of 10 metres, it is ideal for use with groups or in the classroom to ensure that everyone can join in. 9V PP3 battery included.

it-Stick - 10 metre operating range. Left/right click and drag lock buttons. 9V PP3 battery included.

4413	it-Send	£59
4414	it-Send Pro	£69
4412	it-Roll	£119

------	--------------------------	----------------	--------

Flexzi Mounts

A simple, light and economic way to position switches and other lightweight devices. The Flexzi is a single strand of flexible plastic segments which allows perfect positioning for smaller items such as switches, mobile phones and small communication aids.

The Flexzi is easy to position at any angle and in a wide variety of shapes.

- Available with a Velcro top and a choice of a Velcro (black only) or Super Clamp Base (all colours).
- Plus a Universal option which enables the connection of the Universal Mounting Plate (see page 48).
- Three colours to choose from – black, green or pink.
- Easily attached to a chair, table or tray.
- Wires can often be threaded through the tubing on the Velcro base model.

Available in three lengths

- Small - 15cm with weight bearing capacity of 2.5kg to 3.2kg.
- Medium - 30cm with weight bearing capacity of 0.78kg to 0.95kg.
- Large - 45cm with weight bearing capacity of 0.42kg to 0.68kg.
- Please note: the capacity depends on the angle of the Flexzi. The more upright it is, the greater the weight it can hold. Switch not included.
- The new Flexzi 2 has double strands of plastic segments which is appropriate for positioning larger switches and devices.
- Available in black, pink or green in medium length (30cm) with a Super Clamp Base.

n/a	Flexzi 1 Clamp Base Large	£70
n/a	Flexzi 1 Clamp Base Medium	£60
n/a	Flexzi 1 Clamp Base Small	£50
n/a	Flexzi 1 Velcro Base Large	£55
n/a	Flexzi 1 Velcro Base Medium	£45
n/a	Flexzi 1 Velcro Base Small	£35
n/a	Flexzi 2 Clamp Base Medium	£60

Please see www.inclusive.co.uk for full details and options.

Choose from three pre-configured solutions for Jelly Bean Switch, , Small Smoothie Switch, Big Switch, BIGmack, Large Smoothie Switch or SmoothTalker with either Allen Key or Quick Release.

See www.inclusive.co.uk for all pricing options.

Inclusive Multiswitch 2

The Inclusive MultiSwitch 2 is an intelligent switch interface that can be programmed to detect the application you're using and set itself up accordingly.

- Use with up to six switches.
- Automatic update of software database when on the Internet.
- Create your own switch profiles with mouse clicks, key presses or application actions (such as print or save) to access non-switch software.
- Can also be used to enable switch access to mouse movement, with four built-in cursor speed settings.
- Supplied with switch control software.
- Windows and Macintosh compatible.

5685	Inclusive Multiswitch 2 USB	£74
5686	Inclusive Multiswitch 2 USB (5 pack)	£349

Switch Interface Pro 6.0

From Don Johnston, this interface is easy to use, requires no software and works with both Windows and Macintosh computers. Connect up to five standard switches. Provides the flexibility of emulating everything from a single click to a return. Supports switch accessible software including *Clicker 5* and upwards.

- Gets programs up and running in seconds.
- Bright indicator lights show which functions are active.
- Connects to USB port.
- Small size - easy to tuck away and travel with.
- Just push a button to change function sets.
- Includes the cables needed for connecting to the computer.

5159	Switch Interface Pro 6.0 USB	£90
------	------------------------------	-----

Joy Cable 2

The simplest switch connection available! Just plug in the switches. Suitable for two switches. USB interface. This switch adaptor is supported by most switch accessible software. It comes with Sensory's *Switch Driver* software to allow it to be used with programs that do not directly support switch access.

1662	Joy Cable 2	£49
------	-------------	-----

JoyBox

The JoyBox allows you to plug from one to twelve switches into a computer using standard (3.5mm) switch inputs. It plugs into the USB port of your computer. The JoyBox allows eight switches to be connected for any use and four more switches can be connected for directional control. It can be used with almost all switch software.

5028	JoyBox	£79
------	--------	-----

Hitch Switch Interface

With no software setup, Hitch is immediately ready to deliver five sets of functions to as many as five switches at a time. Rows of functions are chosen with a single push of a button. Use any switch accessible title for scanning access. Hitch easily delivers up, down, left, right and enter controls to your switches.

5681	Hitch Switch Interface	£65	£52
------	------------------------	----------------	-----

Inclusive Simple Switch Box

An interface ideal for use with Inclusive's switch software. Easy to use - simply connect to a USB port on your computer and plug in one or two switches. Two jack sockets allow switch presses to send space and enter, allowing you to operate any software controlled by these keys. It cannot be used with programs that require other switch inputs.

3208	Inclusive Simple Switch Box	£39
------	-----------------------------	-----

Crick USB Switch Interface

This clever and reliable USB switch interface works with almost all switch accessible software on Windows and Macintosh computers. This interface sets itself up for the application you are using. It comes with *USBKeys2* software that can detect the application you are using and set up your switches for the appropriate key presses or mouse clicks. USB lead included. Requires Windows 98 and above/Mac OS 9 or X, and a USB port.

0994	Crick USB Switch Interface	£99
------	----------------------------	-----

Peek-a-Boo Bear

Pressing the switch will engage the child in a game of peek-a-boo as the bear lifts and hides behind the blanket saying 'You can't see me' and 'Where am I', before pulling the blanket down and saying 'Here I am'.

- Accepts a 3.5mm switch (not included).
- 3 x AA batteries included.

5208	Peek-a-Boo Bear	£48
------	-----------------	-----

Little Listener

The Little Listener is a robust, hand held, loud speaking MP3 player which is switch accessible! It provides an easy way for learners to listen out loud to their favourite audio stories, songs and games, both indoors and outdoors. It has built-in rechargeable, replaceable batteries, a built-in microphone for recording and switch accessibility.

- A site licence for StoryPhones software with easy to use settings is included.
- Supplied with a range of audio stories and songs from many of the publishers who feature in the unique StoryPhones MP3 download store.
- Available in six different colours: green, orange, purple, blue, yellow or red.
- Two years warranty as standard.

6303	Little Listener - Red	£100
6304	Little Listener - Orange	£100
6305	Little Listener - Yellow	£100
6306	Little Listener - Green	£100
6307	Little Listener - Blue	£100
6308	Little Listener - Purple	£100

Switch Adapted Digital Camera with switch interface

- Digital camera supplied with an innovative USB switch interface.
- Simply connect and use straight out of the box!
- Single switch activation automatically focuses and takes images.
- Camera features: 10MP, 3x3 optical zoom, 2.5 inch LCD screen. Interface includes standard 3.5mm switch socket.
- Switch not included. Please note: camera colour may vary from that illustrated.

4998	Switch Adapted Digital Camera	£225
------	-------------------------------	------

Remote Controlled Inflatable R2D2

Entertain and delight with this well known jumbo sized remote controlled inflatable toy! The remote control has been fully switch adapted - you can move R2D2 forwards, backwards, left and right and even make him do a 360 degree spin!

- Use any standard 3.5mm switch (not included).
- R2D2 comes complete with a foot pump, switch adapted remote control, RC drive unit and inflatable R2D2 body.
- 4 x AA batteries and 1 x 9V battery (included).
- 65cm tall.

6201	Remote Controlled Inflatable R2D2	£84
------	-----------------------------------	-----

Thomas the Tank Engine

Thomas is an ideal switch adapted toy for young children. It is very simple for the child to control. All that's required are two switches (not included) connected to the adapted controller. Pressing one switch or button will make Thomas chug along in a straight line.

Pressing the second switch, or button, makes him reverse in a circle - just let go when he's pointing in the right direction and drive him away again.

Thomas chugs along when the switch is pressed but stops when released. When he's stopped he'll encourage more play and attention by 'peep peeping' and saying his phrases. 6 x AAA batteries included.

4782	Thomas the Tank Engine	£40
------	------------------------	-----

Bongo Drums

Touch the drum pads for sounds and lights. Twist the discs to vary the pitch and create a new sound. Use the six sound buttons for quirky sound and light effects.

Connect any 3.5mm switch and play one of four samba melodies with each switch press. Attach the microphone and sing along or record and play back. Use a 3.5mm switch (not included). 4 x AA batteries included.

5780	Bongo Drums	£46
------	-------------	-----

Henry the Hoover

Henry has a switch adapted hoover suction function ideal for role play activities.

- Use a standard 3.5mm switch (not included).
- All accessories fit neatly inside including nozzles and a small dustpan and brush.
- Cord reels in like the real thing. Debris collects in removable drawer.
- The hoover activates for as long as the switch is pressed.
- 4 x C batteries included.

6207

Switch Adapted Henry the Hoover

£48

Washing Machine

Hotpoint washing machine has a switch adapted wash function. Ideal for role play activities.

- Push buttons control fill, wash and spin options. Red on/off light, realistic water filling sound and turning drum.
- Use 3.5mm switch (not included). 3 x C batteries included.
- Dimensions: 30 x 22 x 20cm.

4483

Hotpoint Washing Machine

£48

Microwave

Use a 3.5mm switch (not included) and press to start or use front panel controls. Realistic rotating turntable with interior light, noises and flashing coloured display. 3 x AA batteries included.

- "Cooks" for 30 seconds, including a pause at 15 seconds.
- Dimensions: 17 x 30 x 18cm.

4485

De Longhi Microwave

£48

Penguin Racer

Penguins are hoisted up the ski lift ladder, then slide quickly down the winding slope before they do it all over again. Releasing the switch lets the penguins stop for a breather. Height is approximately 14"/36cm. Contains small parts so may not be suitable for all learners. Use a 3.5mm switch (not included). 1 x D battery included.

5781

Penguin Racer

£32

TOLO Switch Adapted Vehicles

Simply connect your 3.5mm switch to the wireless controller. Press once and the toy will start, with sound effects and lights. It will travel for a set distance then stop, with more sound effects. The wireless controller has an image of the toy it connects to. Switches are not included.

TOLO First Friends Car

Includes car and driver.
Dimensions: 26cm x 14cm x 17cm.
2 x AA batteries included.

TOLO Tractor Set

Includes tractor, driver, trailer and cow. Dimensions: 33.5cm x 14.5cm x 17cm.
3 x AA batteries included.

TOLO Safari Set

Includes safari truck, driver and tiger.
Dimensions: 26 x 14 x 17cm.
3 x AA batteries included.

TOLO Construction Set

Includes digger and driver.
Dimensions: 24 x 14 x 17cm.
3 x AA batteries included.

6171

TOLO First Friends Car

£50

4832

TOLO Tractor Set

£97

4833

TOLO Safari Set

£97

4834

TOLO Construction Set

£97

TOLO Train Set

Pressing an external switch (not included) connected to the infra-red wireless control box, will make the train chug around the track whilst tooting its horn and flashing its light. Can be used with toy control boxes and to extend the range of control options. 1 x PP3 and 3 x AA batteries included.

4764

TOLO Train Set

£143

Mini Beamer Transmitter

20% off
until
31/08/14

The new Mini Beamer Transmitter has a built-in touch/proximity sensitive switch which can operate when the user is within 10mm of the surface.

It can be paired with the new Mini Beamer Receiver as well the Jelly/Big Beamers (see page 45) or SLAT receivers. Pairing with more than one receiver allows the user to operate more than one item at the same time.

- Touch sensitive switch built-in.
- Input jack for external switch operation.
- Indicator light blinks and auditory beep on both touch and release.
- Rechargeable battery built-in (charger supplied).
- Long range, over 9 metres.
- Suitable receiver is required.
- Dimensions: 2 x 6.7 x 4.7cm.

6839	Mini Beamer Transmitter	£99	£79.20
6870	Mini Beamer Transmitter & Receiver	£215	£172

Mini Beamer Receiver

20% off
until
31/08/14

A new compact receiver offering the same timing options as the SLAT receiver. With a built-in Digital display to allow you to choose four modes of control, including timed seconds, timed minutes, latch, and a direct mode that operates just like an original switch.

Simply connect to an adapted device using the supplied cable and pair with a Mini Beamer Transmitter, Jelly Beamer or Big Beamer Transmitter. Up to eight transmitters can be paired to allow more than one person to participate in an activity.

- LCD digital display.
- Four modes, direct, latched, timed minutes and timed seconds.
- Rechargeable using supplied charger.
- Long range, over 9 metres.
- Suitable transmitter required.
- Dimensions: 2 x 6.7 x 4.7cm.

6838	Mini Beamer Receiver	£119	£95.20
6870	Mini Beamer Transmitter & Receiver	£215	£172

it-Control

A compact controller and receiver. Small enough to fasten on to an adapted toy or other battery device, and connected using the cable supplied. It can then be paired with an it-Switch to give wireless operation. Give your battery toys the freedom to roam (batteries included).

4417	it-Control	£65
4416	it-Control Lite	£49
4418	it-Control Pro	£119

See www.inclusive.co.uk for full details and Starter Packs.

AbleNet Toy Control Timers

20% off
until
31/08/14

Single SLAT

- Timed mode: the device stays on for 1 to 60 seconds with one activation.
- Latch mode: one switch press turns the appliance on; the next turns it off.

Choice SLAT

- Turn on one of two devices in a choice making activity. One user, two switch inputs.

Dual SLAT

- As the Choice SLAT, but this time two switch users can control their own toy or appliance.

0132	Single SLAT	£75	£60
0131	Choice SLAT	£95	£76
0133	Dual SLAT	£85	£68

Battery Switch Adaptors

Adapt any battery operated toy or device for switch operation.

0083	AA Battery Adaptor	£9
0084	C/D Battery Adaptor	£9

it-Click-On Plus

*Part of the
Simply
Works
Range.*

Adds the benefits of wireless control to all the features of the Click-On. The it-Click-On Plus has a built-in Simply Works wireless receiver, allowing it to be controlled by Inclusive's it-Switch, as well as having two sockets for use with wired switches. Two mains sockets allow two devices to be controlled at the same time using the chosen mode settings. Has direct, latching, timed, two switch on/off and two switch

cooperative settings using wireless and wired switches singularly or in a combination.

- Single switch operation in direct, latched, timed minutes and timed seconds modes. Two switch control in cooperative and on/off modes.
- Two 220V, 50Hz sockets.
- Two 3.5mm switch input sockets.
- Operates wirelessly with it-Switch at up to 10 metres away.
- Operates with wired or wireless switches, or a combination of both.
- LED display for pairing with an it-Switch and selecting control modes and time settings.
- On-board memory retains the previous mode and time settings even after power off.

4944	it-Click-On Plus	£159
4945	it-Click-On Plus (5 pack)	£755

Inclusive Click-On

*A fully
featured mains
controller
from Inclusive
Technology.*

The Inclusive Click-On offers all the options you expect from a mains controller and more. Our fully electronic controls give more features and greater accuracy than other devices. With two fully independent channels, it can operate two mains devices simultaneously using the same settings. With easy touch controls and clear indicator lights, it is simple to choose the desired functions.

There are different control methods

- Direct - the device operates as long as the switch is held down.
- Latching - press the switch to turn on, press again to turn off.
- Timed seconds - set for seconds and choose the desired operating time: 5, 10 or 15 seconds etc.
- Timed minutes - set and choose the time.

Inclusive Click-On has these great features

- Cooperation - connect two switches. Both need to be pressed at the same time to switch on the device.
- Two switch on/off - connect two switches. Press one to turn the device on and the other to turn it off. A simple, easy to grasp concept that is ideal for introducing two switch skills.

3584	Inclusive Click-On	£129
4240	Inclusive Click-On (5 pack)	£612

Super Disco Ball

A colourful disco light which simultaneously rotates vertically and spins horizontally, shooting beams of light in all directions.

4390	Super Disco Ball	£32
------	------------------	-----

Plasma Ball

- Place your hand on the plasma ball and see its shape light up and attract a spiral of light. Run your finger across the ball and watch the spiral of light follow.
- Operates on 240V transformed to 12V.
- 150mm diameter.
- Not for use with the Click-On.
- Adult supervision required - contains glass parts.

3589	Plasma Ball	£25
------	-------------	-----

Our sensory toys are spinning, flashing, bright and colourful mains devices for use with the it-Click-On Plus and Inclusive Click-On
See page 56

------	----------------	----------------	--------

LOGAN ProxTalker

A picture communication device that talks. Ideal for a range of communication needs for children and adults. This exciting device recognises the sound tags to produce the appropriate stored word or phrase. Ideal for picture exchange system users of any age, for communication or as a classroom tool. Just pick a tag, place it on a button and press. The LOGAN ProxTalker will say the appropriate sound, word or sentence. It extends the world of communication for picture exchange users, taking them beyond the classroom.

Features

- Robust, water resistant and easy to use.
- Portable in a backpack or wheelchair and wall mountable.
- Light touch access.
- Tags can be labelled with a wide range of symbols, photos, text or objects of reference.
- Large tags available for those with a visual impairment.
- Easy access to vocabulary.
- Store tags in the colour coded pages for easy retrieval.
- Easily adjustable volume.
- Built-in microphone.
- Each sound tag can store up to 8 seconds of recording.
- 1GB memory (30,000 sound tags).
- Powered by 4 x C batteries included.
- USB connectivity.
- Dimensions in backpack: 330 x 180 x 90mm.
- Weight in backpack (with tags): 2.17kg.

4796	Logan ProxTalker with Backpack Blue	£1695
4798	Logan ProxTalker with Folder	£1695

The new QuickTalker S from Ablenet provides simple sequential communication with zero pressure proximity switch operation. It is ideal for those users with a very light touch or who are distracted by the noise made by mechanical switches.

NEW

- Multi message sequential communicator.
- Total record time of 30 seconds.
- Flashing indicator light while a message is playing.
- Slide-in symbol holder 75 x 75mm.
- Activate by light touch or waving a hand within 10mm of the surface. Fits Universal Mounting Plate.
- Uses 9v battery included.
- Dimensions: 149 x 42mm.

20% off until 31/08/14

6840	QuickTalker S	£48	£38.40
------	---------------	----------------	--------

AdVOCate+

By Toby Churchill

- Slim, portable communication aid and environmental control unit.
- 2 to 128 messages.
- Wide range of switch and scanning options.
- Environmental controls – can learn infra-red signals.
- Keyguards for 1, 2, 4, 8 or 16 buttons.
- 70 x 27 x 270mm.
- 2 x AA batteries included.

AdVOCate+ is the ideal device for assessment, for multiple users in the classroom or centre, or for individuals who would benefit from communication and infra-red capabilities in one device. It includes a 12 month manufacturer warranty.

3597	AdVOCate+ with infra-red	£99
6762	AdVOCate+ with infra-red - 5 pack	£396
6763	AdVOCate+ with infra-red - 10 pack	£693

StepPAD

An ergonomically designed portable teaching tool and sequencing communication aid that fits nicely into a purse, pocket or hands. A really useful device for vocational tasks, household chores, personal routines, school schedule, cooking procedures, shopping lists, activity transitions and simple choice making.

Press any of the four activity buttons to activate a step by step sequence. Users hear the steps one at a time by pressing the next button. Press play to repeat a step. Review previous steps with the back button.

- Create up to 8 different activities (4 activities, 2 levels).
- Record up to 30 steps per activity plus 2 core messages.
- 32 minutes total recording time.
- Headphone jack.
- Record, level and activity lock.
- 2 x AAA batteries included.

The StepPAD is also available to buy with *Go Talk Overlay* software, a great way to make professional looking overlays quickly. Lanyard included.

Dimensions: 165 x 50 x 13mm.

See www.inclusive.co.uk for details.

6124	StepPAD	£75
6133	StepPAD with Go Talk Overlay Software	£99

Tobii S32

Voice output and environmental control.

The Tobii S32 provides crisp, clear message output and can also be used to control lights, small appliances, adapted toys, televisions, VCRs and DVDs.

- A communication aid with environmental controls and light touch buttons.
- Over 60 hours recording time.
- 192 levels (sets of messages).
- Keyguards for 1, 2, 4, 8, 16 and 32 layouts included.
- Uses *SymbolMate* software for creating barcoded overlays – overlays are automatically detected when inserted into the device.
- Environmental control – can learn signals from infra-red remote controls.
- Scanning version available.
- 313 x 253 x 31mm.
- 4 x AA batteries included.

The Tobii S32 reliably withstands active daily use. Rubber side covers protect the device and allow you to personalise it in a choice of four colours (included). It is easy to carry anywhere

and the carrying strap allows it to be worn in different ways.

The Scan model has two interface ports for connecting to toys and custom activation modes. It offers multiple scanning options for switch users and allows one or two switch access.

Note: to make your own overlays for the Tobii S32, you will need to purchase Tobii *SymbolMate*.

See www.inclusive.co.uk for details.

4769	S32 Touch with SymbolMate	£673
4842	S32 Scan with SymbolMate	£725

Inclusive has a range of speech and hearing amplifiers that have been carefully selected to support individuals with a weak voice or hearing impairment.

Freiburg Speech Amplifier

- This product acoustically amplifies a whisper (oesophagus speech) up to about 15dB.
- Oral communication is made possible via the lightweight Freiburg amplifier and a choice of microphones.
- Hand held microphone; mini/lapel microphone with fixing clip, headset microphone or ear-clip boom microphone.
- Voice amplifier has a socket to allow connection to a telephone amplifier or an external active amplifier box.
- Two batteries supplied: one to be used, the other to be kept on charge to provide continuous power.

5346	Amplifier with Hand Held Mic	£743
5345	Amplifier with Ear-clip Boom Mic	£781
5347	Amplifier with Lapel-clip Mic	£972

Micro Voice Amp

A high quality voice amp with loud and clear sound plus reduced distortion and feedback. Fast charging, extremely long battery life – integral battery will last for days without charging. Lightweight and portable enough to wear or carry.

EchoRA

A portable and wireless speech amplifier system.

- Produces effortless volume and clarity.
- Completely portable and wireless!
- Miniature 2.4GHz microphone transmitter.
- Compact, lightweight expandable speakers that fold away after use.
- Lithium rechargeable batteries.
- Small and personal - minimum size, maximum sound!
- Use the speakers to listen to your MP3 player or boost a communication aid's sound output.
- Includes carry pouch, over ear boom mic, lapel mic, expandable speakers, charger and audio link lead.

5529	EchoRA Wireless Speech Amp System	£199
------	-----------------------------------	------

EchoVoice EV5

- New and improved compact speech enhancement system, sensitive enough to dramatically amplify and clarify the faintest voice.
- Transdermal (throat) microphone gives a comfortable option of freedom of movement without the need to wear a headband. Allows EchoVoice to be used in situations where an oxygen mask is in use and the mouth may be covered.
- Headband type boom microphone.
- Active tone control provides excellent sound quality and also the ability to negate any feedback.
- Waistband style system supplied with belt as standard.
- Charger unit included.

5650	EchoVoice EV5	£315
------	---------------	------

Simple operation – volume control, coloured LED indicators, mute function. Flexible microphone options – choose from a high quality AVI Headset Microphone; a Lapel Microphone; or a Transdermal Microphone (worn around the throat).

- Ports: 3.5mm mono input, 3.5mm stereo output.
- Comes with: charger, belt clip, waist strap, user guide and microphone option.

6891	Micro Voice Amp / Headset Microphone	£350
6892	Micro Voice Amp / Transdermal Microphone	£350
6893	Micro Voice Amp / Lapel Clip Microphone	£350

MicroSpeak Sound Recorder

£49

4338 Easi-Speak Pro (5 pack)

£230

4339 Easi-Speak Pro (10 pack)

£450

Easi-Speak Sound Station

This great audio device lets you connect via the Easi-Speak headphone socket and play back your contents to a group or classroom. The sleek design is colour coordinated to your Easi-Speak and will brighten up any setting. Six headphone sockets allow children to listen without interruption. Built-in rechargeable battery. (Easi-Speak not included.)

4729	Easi-Speak Sound Station	£49
3393	Easi-Speak Recorder Yellow	£39

Easi-Listener

- A high quality CD player with built-in connections for six separate headphones. Groups of children can listen to music and stories without interruption. No more messy splitters!
- The high power speakers make it ideal for class activities.
- CD, CD-R and CD-RW formats plus built-in AM/FM radio.
- 8 x C type batteries and mains adaptor included.

3598	Easi-Listener	£59
3599	Easi-Listener with 6 Headphones	£82

StoryPhones System

A set of six MP3 player headsets, a loud speaking MP3 player with microphone and a USB base unit. Headsets are wire free, robust, easy to use and rechargeable. Users can play/pause, adjust the volume and move tracks.

- Headsets twist and bend and stand up to constant use.
- Headsets are supplied with audio stories and songs.
- Each player, including the remote console, can be set up to play a different set of tracks.
- Remote control feature for group listening.
- Includes *StoryPhones BookShelf* software with media play, file storage, audio management, play list creation, tag editing, children's mode, training videos and help file.
- Download the same track to multiple headsets.
- 3.5mm switch (not included) control for up to two switch devices. Headsets also sold separately, see www.inclusive.co.uk

5882	StoryPhones 4 way system	£495
5883	StoryPhones 6 way system	£595

Easi-Ears Wireless Headphones

- Easi-Ears, a digital audio system, allows a group to listen together on wireless headphones anywhere in the classroom, or even outdoors.
- No need to be connected to a computer or a CD player and certainly no messy wires!
- Download MP3 content from your PC through the docking station onto each pair of headphones.
- Children can then play, pause, or move between tracks using the controls on their headsets.
- Teachers can also select which track children are listening to using the remote control unit.
- Each pair of headphones is fully rechargeable through the docking station (battery life approx. 8 hours) and contains its own controls for volume.
- If the headphones are removed before the track has finished, the track will pause and only resume when put back on.
- Robust and fully adjustable with a twistable headband.
- The full set of Easi-Ears includes a set of six different coloured headphones, remote control unit, docking station for recharging and software.

5689	Easi-Ears Wireless Digital Audio System	£399
------	---	------

Easi-Torch

- Easi-Torch are a simple to use set of six LED rechargeable torches.
- They stay bright for up to three hours then can be recharged in the hub supplied.
- Includes battery life indicator light, large easy to use on/off switch and colour coordinated tops.
- One each of, red, orange, yellow, purple, blue and green.

6899	Easi-Torch	£52
------	------------	-----

Rechargeable Bee-Bot

Easy to use with big arrow buttons and very robust, Bee-Bot is fantastic for children of all abilities. A large memory of up to forty steps means you can send your Bee-Bot across the room to friends or around your own obstacle course. Bee-Bot will confirm moves and commands with flashing eyes and optional sounds. It works on rough or smooth surfaces and is small enough to use on a table. A bundle is also available with six Rechargeable Bee-Bots.

6452	Bee-Bot Rechargeable	£49
6454	6 Bee-Bot Class Bundle	£274
6453	Bee-Bot Docking Station	£32
6454	Bee-Bot Carry Bag (for up to 6 Bee-Bots)	£19

Alphabet Mat

Ideal for developing literacy and ICT skills. Can you make Bee-Bot find a letter? Can he spell out particular words? Features upper and lowercase letters.

Busy Street Mat

This mat supports a wide range of subjects including ICT, literacy and numeracy. Comprehensive support notes are also included.

Treasure Island Mat

Have fun exploring and hunting for treasure. Ideal for teaching control in the Foundation Stage and KS1. Complete with support notes.

Shape, Size and Colour Mat

Help Bee-Bot to find different shapes and colours as he navigates this bright and colourful mat. Combine mathematics and ICT whilst having fun!

Race Track Mat

Can Bee-Bot follow the track and win the race? Can he finish in time? Great for group activities.

You could customise your Bee-Bots

with clip-on shells to race each other. With support notes and photocopyable game cards.

Transparent Grid Mat

A transparent mat for creating your own activities. The mat is ready printed with a grid to suit the Bee-Bot. Your learners could design their own mats too!

Giant Sequence Cards

Forty nine durable cards to help plan your Bee-Bot program. Perfect for group work.

1893	Alphabet Mat	£22
1895	Busy Street Mat	£24
1896	Treasure Island Mat	£22
1894	Shape, Size and Colour Mat	£22
1897	Race Track Mat	£19
1888	Transparent Grid Mat	£15
1889	Giant Sequence Cards	£15

Bee-Bot Starter Pack

Includes one Bee-Bot, one battery charger, four batteries, three activity mats (Treasure Island, Busy Street and Transparent Grid), sequence cards and ten white clip-on shells.

1887	Bee-Bot Starter Pack	£124
------	----------------------	------

A great selection of activity mats are available for use with your Bee-Bot. These really help with developing directional language and provide lots of fun and educational activities too!

Constructa-Bot

A delightful, versatile digger that uses the same controls and movement capabilities as Bee-Bot. Watch it push, scoop and transport resources from place to place.

- Try it on a pretend building site, snakes and ladders mat, board game or moving through different locations. Lots of fun!
- Children will learn how to move objects around using the simple forwards, backwards and left/right controls.
- Built-in trailer for carrying small items.
- Connect LEGO® to the top to make unique designs.
- Built-in dry wipe pen holder - why not trace Bee-Bot's route?
- Specially designed holes to attach Kid K'NEX.
- 3 x AA batteries included.

3390	Constructa-Bot	£49
------	----------------	-----

Pro-Bot

This new floor robot is lots of fun, like the Bee-Bot, but is ideal for teaching more advanced control techniques.

The bright, attractive car design has strong child appeal and Pro-Bot is robust and durable. Simply use the programming arrows, which work just like Bee-Bot, or use more complex commands. The number keys can control the amount of turns and movement. Procedures can be activated by the sensors too; you could make Pro-Bot beep and switch its headlights on. Routes taken can be drawn using the simple pen mechanism and a standard felt tip pen. Pro-Bot can operate independently or alongside your PC via a USB connection. The memory can store over 100 commands, even if powered off or when the batteries are changed.

2325	Pro-Bot	£89
2326	Pro-Bot 4 pack	£328
2327	Pro-Bot 6 pack	£429

Pro-Bot Starter Pack

The Pro-Bot Starter Pack is an educational resource to make preparations for your lessons trouble free.

Investigate different angles whilst you race around your mat. Use *Probotix* software to simultaneously set groups off, bringing different procedures together as one almighty programme.

The pack includes:

- One Pro-Bot.
- Single user *Probotix* software.
- Pro-Bot Amusement Park Mat.
- USB cable.
- Rechargeable battery unit with 4 x AA batteries included.

3794	Pro-Bot Starter Pack	£139
------	----------------------	------

Tuff-Cam 2

Tuff-Cam 2 is the latest 12MP digital camera with video from TTS. It has a familiar, rugged design created by teachers, and a simple trigger for taking pictures and shooting videos.

- Fully rechargeable Li-Ion battery.
- Bigger 2.0" high quality TFT screen.
- Up to 12 mega pixels (4032 x 3024).
- Flat base to enable stop frame animation without a tripod.
- VGA video at 20 frames per second.
- Switch adaptability and AV socket.
- 64MB internal memory which can be expanded up to 2GB via an SD card.
- Audio and video recording and playback.
- Docking station for simple PC connection.
- Download files to PC or Mac.

A hand held, wireless digital microscope that is really easy to use. The large size is easier to hold and investigate for little hands. It communicates with the computer via a radio device which is plugged into the USB port, using digital transmission for perfect picture quality.

4733

Easi-Scope 2

£69

Beamz

Transforms your classrooms, pull-out rooms, community programme and before/after care facilities into model 21st Century learning environments where skill building takes place through music.

Universally designed so it is accessible to students of all learning and physical abilities

- it's switch and adaptive keyboard accessible too! Beamz' versatility in its application context is unmatched; you can work on cause and effect, directionality, sequencing, fine and gross motor skills, common core subjects and more.

The extensive music library includes songs from all genre types and introduces your learners to instruments and music styles they may never discover independently. Songs are created in such a way that musicians and non-musicians sound great, the first time and every time!

If you're working in Occupational, Physical, Neurological, Music or Recreation Therapy - even providing in-home services - Beamz is the perfect addition to your equipment. Beamz is being used in homes, schools, rehabilitation centres and hospitals across the country.

Imagine treatment, intervention and maintenance plans that have your patients and clients working toward their functional objectives via music. Everyone knows that music moves the soul, but wait until you see how it moves the body and sharpens the mind!

Includes Beamz laser controller, USB cable, Bluetooth dongle, Windows Player software and 50-song DVD, Virtual DJ software, Beamz Apple Store access to Mac Player and 50-song redemption code and an activity guide.

Accessibility

Beamz is universally designed so that you can provide your patients and clients with as much, or as little, support as they may need to make incremental progress. Lasers triggered by:

- Physically interrupting the laser beam with any body part or object. Using an adapted keyboard.
- Attaching an interface and switch. Using a computer or iOS smart device with a touch screen or interactive whiteboard.

Includes Activity Guide

- Beginning Rhythmic Patterns
- Musical Instrument Appreciation
- Music Therapy • Introduction to Computers
- Exercise and Recreation • Incentivise and Reward
- Response to Classical Music
- Basics of Reading Music in 4/4 Time
- Learning the Scientific Method
- Understanding Fact Families

Compatibility

- iPad/iPhone/iPod Touch (running iOS 6.0 or later).
- Mac (running OS 10.8x or later). PC (running Windows 7/8).

See www.inclusive.co.uk for full details.

Beamz Interactive Music System

£250

Skoog

Skoog is a musical instrument for children of all ages and abilities. Expressive, tactile and intuitive, a universally accessible platform for creating and exploring musical sound. It uses state-of-the-art software to deliver the quality and expressive character of real musical instruments. Flexible and simple to use, it offers not only the opportunity for learning, creativity and expressive musicianship, but also a fun and engaging audio resource.

The Skoog package contains one multi-touch sensor, one software CD and comes complete with ten fantastic instrument sounds. Simply install the software on your computer, connect your loudspeakers and connect your Skoog to the USB port and you are ready to play.

Music for everyone

Skoog puts you in full control of the sound. Fully adjustable sensitivity and skill settings mean that even an absolute novice can play like a pro.

With the option to create custom user profiles (tailored to suit each individual), the software is really easy to use.

Features

- Robust and wipe clean.
- Five adjustable touch sensitive surfaces.
- A range of instrument sounds: woodwind, brass, string and percussion.
- Use traditional scales or create your own.
- Software included.

4926

The Skoog

£415

Headmaster Collar

A comfortable cervical spine support. Originally designed for people suffering from arthritis, but has been found to be appropriate and of great benefit to people suffering from many other disabilities including:

- Progressive neurological conditions such as motor neurone disease.
- Congenital conditions such as cerebral palsy.
- Whiplash.
- Head and spinal cord injury.
- Burns.

Constructed from surgical rubber tubing around a malleable core, the tubing is covered with a brushed nylon material that allows the Velcro attachments to adhere anywhere. Each Collar is supplied pre-assembled and ready to use - just bend it to the desired fit by hand.

Fitting Instructions are enclosed with the collar.

Extension Pads, Neck Pads, spare Chin Pads and Spare Neck straps available. Anterior Support is also available.

Choose from six sizes.

Please note this product cannot be returned.

See www.inclusive.co.uk for further details and prices.

5250	Headmaster Collar	Large	Dimension 'A' 127mm (5.0in)	£70 each
5251	Headmaster Collar	Medium	Dimension 'A' 114mm (4.5in)	
5252	Headmaster Collar	Small	Dimension 'A' 102mm (4.0in)	
5253	Headmaster Collar	Junior	Dimension 'A' 89mm (3.5in)	
5254	Headmaster Collar	Child	Dimension 'A' 76mm (3.0in)	
5259	Headmaster Collar	Infant	Dimension 'A' 70mm (2.7in)	

Important: collar to be fitted by a qualified professional.

Caution: this product contains natural rubber (Latex) which may cause an allergic reaction. Latex free version available – please contact us for information.

Ergo Rest Mobile Arm Support

- The Ergo Rest provides the answer for those who require support for their forearm when eating, typing or working at a table.
- The Ergo Rest reduces fatigue and strain and improves arm mobility and dexterity.
- Provides horizontal movement.
- Suitable for keyboard operation and a wide range of other activities, both at work and leisure.
- Quality of manufacture and finish is a major feature.
- Neat and attractive design - the elegant arm support would not look out of place in any home, office or school.
- The unit clamps easily to the edge of a table or desk.

- It can be fitted to a wheelchair using the Mobilia wheelchair clamp and adaptor.
- The height may be adjusted quickly and easily.
- The Ergo Rest has enabled many people to work again.

The Ergo Rest is available with a range of options including different pad and arm sizes, mouse pads and wheelchair mounting, all with two different clamp sizes.

n/a	Sci-Plus 200 Non-Talking Calculator	£195

Co:Writer 7 - Word Prediction

Your Word Prediction, Simply Put.

Co:Writer 7 is the only word prediction program to use the context of a whole sentence to predict the next word. This provides the most accurate prediction available - crucial for your most struggling writers. As students write, *Co:Writer* offers a list of word suggestions. After hearing the words read aloud, students choose the word they intended to write.

Co:Writer's FlexSpell™ provides every conceivable letter pattern students will try in an attempt to spell words, so interpreting phonetic and inventive spelling. It offers correct word choices that even the most sophisticated spell checkers cannot produce. *Co:Writer 7* works in conjunction with any application you write in, like *MS Word*, on web sites, blogs, in emails, etc.

New Features in Version 7

- USB Flash Drive Support allows *Co:Writer 7* to run directly from a USB drive (no need to install).
- Testing Accommodation Support to quickly restrict features during tests.

- Simple Interface – just one window
- Works identically with Mac & Windows computers.
- Use *Co:Writer's* text to speech to read the web and text in any application.
- Network Ready to allow access to students' writing profiles on a network server or USB drive.
- Personal Dictionary for quick access to words that are unique to the user.

£179

Co:Writer University Edition

Many of the students who grew up using *Co:Writer* became so successful that they are going off to college. We'd like to help them succeed there too. *Co:Writer University Edition* is perfect for college students or high schoolers transitioning to college. Learn more about University Edition at www.donjohnston.com/highered
See www.inclusive.co.uk for licence options.

Co:Writer iOS App for iPad

We kept hearing that the word prediction Apps out there just weren't *Co:Writer*. Well, this App is *Co:Writer*! It uses the same word prediction engine as *Co:Writer 7*. It includes many of the most important features students rely on like *FlexSpell* and Topic Dictionaries. Of course, iOS limits to one application at a time, so students write in a dedicated writing space then copy and paste into other Apps.

Features

- Topic specific dictionaries.
- Send text to email, Dropbox, Google Drive, Twitter and Copy to clipboard.

Download from Apple iTunes Store.

Snap&Read

Snap&Read is an accessible toolbar that reads any text on-screen as it floats over any application. The simple one-button interface reads both accessible and inaccessible text aloud from Flash websites, Word docs, PDFs, web-based tests, images, and even dialog boxes.

£99

See www.inclusive.co.uk for licence options.

First Author

First Author is a new software title from Don Johnston Inc. which focuses on developing writing skills for students with more significant disabilities including those with

severe developmental disabilities such as autism. It walks them through the stages of writing in a very systematic yet exploratory manner. It does so by taking students through a three-step process: choosing a topic, selecting a picture prompt, and writing with the support of built-in accommodations.

6761

Read:Outloud 6

Text reader and talking web browser.

Read:Outloud 6 is a text reader that gives struggling readers access to a whole range of electronic documents - PDF, DAISY, TXT, HTML and XML. It also has a built-in accessible web browser so struggling readers can listen to any web page. *Read:Outloud's* study tools (eHighlighters, notes, interactive outline) help students capture facts and information and improve reading comprehension.

4584	Win/Mac CD-Rom 1-4 licences each	£186
4588	Site licence	£625

More licences available, see www.inclusive.co.uk

Write:Outloud 6

Simple talking word processor.

Write:Outloud 6 is an easy to use talking word processor designed specifically to support struggling writers. It will speak out letters, words, sentences and paragraphs in any combination as the student types, providing real time auditory feedback. *Write:Outloud 6* features a talking Franklin spell checker and dictionary and speaking homophone checker to help students easily revise and edit their work. Students can easily export completed documents from *Write:Outloud 6* to any other word processing program.

4574	Win/Mac CD-Rom 1-4 licences each	£66
4578	Site licence	£399

More licences available, see www.inclusive.co.uk

Draft:Builder 6

Graphic organiser.

Research has shown that struggling writers typically spend less than one minute planning their written work. *Draft:Builder 6* is a graphic organiser that breaks the writing process into three manageable chunks - organising ideas, expanding ideas and writing the first draft. With this simple structure, students quickly learn to generate ideas and organise them to form a coherent written document. Particularly useful for students with poor organisational skills and helps struggling writers to develop deliberate, systematic and strategic writing habits for improving writing quality.

4579	Win/Mac CD-Rom 1-4 licences each	£85
4583	Site licence	£625

More licences available, see www.inclusive.co.uk

SOLO 6 Literacy Suite

Buy all these applications in one SOLO Suite and save!

Combines *Co:Writer*, *Write:Outloud*, *Draft:Builder* and *Read:Outloud* in one fully integrated package. *SOLO* can be less overwhelming than one single application addressing all of these needs, as each tool can be used independently as needed to address one aspect of reading and writing that the student is struggling with.

4589	Win/Mac CD-Rom 1-4 licences each	£480
4593	Site licence	£2,995

See www.inclusive.co.uk for licence and upgrade options.

Multiple user licences can be used across a number of sites. However, a site licence can only be used at a single site.

TextHELP Read & Write V11

An easy-to-use flexible toolbar containing support features to make reading, writing and research easier for you. The software has been designed to address some of the issues that people with dyslexia face daily, namely reading difficulties, writing difficulties, problems with spelling and general literacy support. The software works discreetly with all mainstream applications, allowing users to learn in an inclusive setting. Single user licences are now available as downloads only. Place your order and we'll send you a link and licence code – downloading is quick and easy.

See www.inclusive.co.uk for full details and further pricing options.

Penfriend XP 4.1

Penfriend XP is a powerful tool for those with dyslexia or physical disabilities, adding word prediction, speech and an on-screen keyboard to almost any other software. Now with even better prediction, new display options and much improved abbreviation expansion. Works with your word processor and tries to guess the word you are typing when you have entered the first letter, the second letter and so on. One key press then finishes the word for you. It also learns the words you use frequently and recently, so it improves as you use it. This information is saved for each individual user, together with individual settings. In addition, it is easy for teachers to select preferences, edit children's lexicons and add topic specific vocabulary.

5022	XP Windows CD-Rom single user PC	£60
5024	XP Portable single user USB	£99

Penfriend XL 4.1

Penfriend XL 4.1 is a powerful screen reader with multiple onscreen keyboards. It works in nine European languages and has all the other features of *Penfriend XP*. Now with even better prediction, more voices, homophones and many other improvements. It offers considerable support for users with special needs, helping with spelling, confidence and speed of composing text. See www.inclusive.co.uk for details.

5025	XL Windows CD-Rom single user PC	£120
5027	XL Portable single user USB	£149

ClaroRead SE

ClaroRead SE is a simple and discreet floating toolbar that adds text to speech in Word, Internet Explorer and other programs. *ClaroRead SE* will read back letters, words and sentences as they are typed so that struggling writers can listen for mistakes whilst writing. Clicking anywhere in a Word document and pressing the play button on the toolbar will read out the text, highlighting each sentence as it is spoken, and each individual word spoken in a contrasting colour. *ClaroRead SE* will also grey or dim out sentences not being spoken out to allow the user to concentrate on the sentence being read. It can convert text into an audio file that can be transferred to an MP3 player, iPod or mobile phone and played back.

5718	ClaroRead SE Windows CD-Rom	£49

3354	ClaroRead PRO Windows CD-Rom	£199

Starspell 3

A galaxy of tried and trusted approaches to learning and improving spelling. It assists learning through positive reinforcement and its non-gimmicky style makes it equally suited to mainstream and special needs education, for adult learners as well as children.

Now with a new phonics section designed for use with interactive whiteboards. Complements the English Letters and Sounds phonics scheme (with matching word lists). Now with enhanced network installation and Windows 7 compatible.

4739	Windows CD-Rom	£65
4740	Additional user licence	£15
4741	Site licence	£289

WordShark 4

WordShark 4 combines the excitement of computer games with the serious task of learning to read and spell. Its fifty five games use sound, graphics and text to teach and reinforce word recognition and spelling. Now with courses to support the latest recommendations for a high quality phonics program. *WordShark 4* includes phonics, onset and rime, homophones, spelling rules, common letter patterns, visual and auditory patterns, prefixes, suffixes, roots, word division, high frequency words, use of words in context, alphabet and dictionary skills and more. The games and selection of 1,500 pre-recorded words are designed to assist those with specific learning difficulties. Suitable for home and school use, and all ages. The word lists are arranged in three alternative structured courses covering the Literacy Hour UK spellings and word recognition, secondary school/adult SEN and the three stages of the book *Alpha to Omega*. Variable speeds and other options meet all grades of skill. The latest version has 3,000 extra words from the KS3 curriculum, and sentences that show the words in context. It is easy to add new words for learners to practice and the program keeps student records too.

3255	Windows CD-Rom	£57

Lexion

Lexion is an extremely comprehensive computer based assessment and training tool

designed to help people with speech and language related learning disorders and/or dyslexia. Speech and language therapists and teachers have long since identified the benefits of teaching phonological/linguistic awareness for improving speech and language skills and the relationship with achieving literacy. *Lexion* can be used to:

- Identify specific areas of phonological awareness a child has difficulty with and devise motivational exercises to help improve skills in these areas.
- Help assess any difficulties a child may have in reading and writing during their first years in school.
- Produce comprehensive assessment and progress reports. Results are compared to norms collected from children without difficulties of the same age.
- Provide individual programs of work in specific areas and save them onto disc for working at home too.
- Provide a class based teaching program for fundamental skills in learning, reading and writing. Pre-designed exercises are provided for different year groups with terms relating to the curriculum.
- Suitable for Reception class children to Year 9, plus adults with dysphasia.

Lexion is designed to engage interest and improve concentration – many children enjoy being tested with *Lexion* and will concentrate surprisingly well for long periods.

Dragon Naturally Speaking Premium V12

The latest edition of Nuance's fantastic speech recognition software is faster and more accurate than ever. *Dragon* gives you the power to turn your voice into text in a quick and natural way - three times faster than the average keyboard typist. Create documents, send emails, control applications and navigate the Internet, all just by talking. Use a digital voice recorder and transcribe the audio files back to your PC. *Dragon Naturally Speaking Premium V12* has an enhanced user interface, improved correcting and editing, time saving voice

commands and improved speed and accuracy that copes well with a variety of regional accents and different voices. The Premium version of *Dragon Naturally Speaking* software allows you to create your own voice commands for efficient navigation and performing tasks on your computer. The latest features of *Dragon* include several new options to make it easier to use and includes new voice commands for those who enjoy social networking with Twitter and Facebook, or using a Gmail or Hotmail account.

5414	Dragon Premium V12 CD-Rom PC	£145
------	------------------------------	------

See www.inclusive.co.uk for details on more new features in version 12.

Matrix Maker ^{Plus}

symbols-signs-pictures-overlays

Matrix Maker Plus has been specifically designed to be the simplest and most affordable software for making communication overlays and educational resources. With an easy to use intuitive interface, you can start creating and printing straight away with no need for training.

Includes Widgit Symbols

*Over 11,000
symbols*

The ever expanding Widgit *Symbol Set* has been developed over the past 25 years and now contains more than 11,000 symbols, which cover an English vocabulary of over 40,000 words.

Includes SymbolStix Symbols

*Over 13,000
symbols*

Originally designed and developed by News-2-You, *SymbolStix* depicts people as lively stick figures with no gender, age or culturally specific attributes, so that learners can focus on the concepts without being distracted by detail.

Includes IT Pictures

*Over 3,000
pictures*

IT pictures contains pictures, symbols and illustrations ready to use in *Matrix Maker Plus*. Each image is clear and concise and is supported by strong black outlines for clearer definition.

Download a free Matrix Maker Plus trial now!

Visit www.inclusive.co.uk/matrixmaker

Making symbol and picture resources is now as easy as 1, 2, 3

1. Choose your template

Matrix Maker Plus has a huge bank of ready-made templates ranging from switch and communication device templates, worksheets and more.

2. Add your pictures

You can add pictures from either the IT Media Library, the Internet, your own pictures from your computer or take a picture with your webcam.

3. Print it out

Once you have added your pictures and text to your template, it is now ready to be printed out. It's as simple as that!

Matrix Maker Plus comes with **over 550** ready to use templates to meet a wide range of needs. All you need to do is put in your own relevant content and you are ready.

Teachers

Can make picture timetables and visual schedules, worksheets and certificates, label their classrooms and resources with meaningful symbols and text.

Therapists

Can produce personalised communication books, boards and overlays, fun therapy games and motivational stickers.

Parents/carers

Can make choice boards for home, communication passports, daily journals and home news resources.

Schools

Can provide a versatile, easy to use resource tool that all staff can use with no training needed. Help make your learning environment accessible and meaningful.

Communicate: SymWriter V2

On-screen writing with grids and symbols.

Communicate: SymWriter is a symbol supported word processor. Writers of any age or ability can use Widgit Symbols to see the meaning of words as they type, supporting access to new or challenging vocabulary.

On-screen grids allow selection of text, symbols and pictures to assist writing. The simple grid designer enables quick editing or creation of content.

Subtle assistance

Built-in aids, such as spell checking with symbols, help choose the correct word. Speech support can read out a letter, word or sentence, so that documents can be reviewed by listening rather than reading.

Smart symbolising

Smart symbolising suggests symbols based on part of speech for more accurate symbolisation.

Simple and intuitive

An intuitive word processor enables quick and easy sharing of accessible information through letters, lists, stories and notes. Seeing the meaning of words as you write ensures that support can be adjusted to meet a wide range of situations.

Writing with grids

Edit and personalise ready made environments and templates or start from scratch. Navigate grids with a mouse, touch screen or switch.

SymWriter features

- The Widgit *Symbol Set* in colour and black & white.
- Speech support.
- Drag and drop additional graphics from thumbnail previews.
- Spell checking with symbols.
- Smart symbolising based on parts of speech.
- Adjustable text and symbol size.
- Shows symbol choices, even in text mode.
- Import graphics to support specific words.
- Easy creation of grids for writing.
- Full access for one or two switches and switch scanning
- Includes the 11,000+ Widgit *Symbol Set*, with access to free updates.

6339	Windows CD-Rom	£149
6340	5 user licence	£349
6341	10 user licence	£499

See www.inclusive.co.uk for more licence options.

Communicate: In Print 2

Make symbol supported printed materials.

A desktop publishing program for creating printed symbol supported resources for school, home, business or the community.

Includes the facility to make board type layouts. The symbols, along with powerful features and freedom of layout, help to create materials that have a professional look.

Great for making custom books

Communicate: In Print 2 includes a collection of templates and resources that you can use to quickly produce whatever you need.

Personalise your documents

- Drag and drop pictures onto individual words to personalise their meaning. These images will automatically be stored within the document for moving to other machines, making sharing effortless.
- Includes the 11,000+ Widgit *Symbol Set*, with access to free updates.

1703	Windows CD-Rom	£99
1704	5 user copy	£249
1705	10 user copy	£349

See www.inclusive.co.uk for more licence options.

Communicate: By Choice

Make simple on-screen activities.

A tool that supports users to learn to make choices. Switch accessible and great for use on touch screens.

Includes more than 100 activities that are ready to use and are quick and easy to edit. The activities cover topics such as comprehension, sequencing and visual discrimination.

Ready made activities

- The activities cover a wide range of basic and curriculum tasks, from very simple tasks for young learners or students with severe learning difficulties to much more demanding cognitive tasks.
- Includes the 11,000+ Widgit *Symbol Set*, with access to free updates.

1844	Windows CD-Rom	£49
1845	5 user copy	£119
1846	10 user copy	£169

See www.inclusive.co.uk for more licence options.

Makaton Symbols – The Collection 2013

These symbol and sign graphics offer a structured, multi-model approach for teaching language skills. Contains all the sign and symbol graphics from all of the vocabulary collections, except for Sex Education. Also includes:

- Journey Planner.
- Going to the Dentist.
- Road Safety.
- Makaton for Maths.
- Fitter Feet.
- Summer Games and International Sports.
- Watching my Favourite Sports.

For full details of all Makaton software available see www.inclusive.co.uk

6441	Windows CD-Rom	£250
------	----------------	------

Pragmatic Organisation Dynamic Display

PODD provides practitioners with templates and guidelines to develop an appropriate communication book and also describes comprehensive strategies to enable the use of the system in the child's daily life – at home, at school and in the community.

Who is this resource for?

This resource is for people supporting children who are learning to communicate using aided symbols (pictographs, graphic symbols, whole written words). Therapists, teachers and parents will all have the opportunity to access the materials in this resource for their clients, students, children and young people.

What does the resource contain?

The resource provides templates to create a range of *PODD* communication books designed for children who use direct pointing with a whole hand, finger or pointer. Some of these page sets can also be modified to accommodate pick up and give/show or partner assisted scanning access methodologies.

System requirements:

- Boardmaker for Windows or Mac version 5 or later for printing and customising the templates.
- Requires Adobe Reader and Boardmaker Mac or PC.
- Adobe Reader.
- CD-Rom drive.

See www.inclusive.co.uk for further details.

6023	Pragmatic Organisation Dynamic Display	£199
------	--	------

SymbolStix

SymbolStix is the newest symbol set from the US, now versioned for UK English. Originally designed and developed by News-2-You Inc, for use in its Internet newspaper and online curriculum, *SymbolStix* depicts activities and people as lively, vibrant stick figures, drawn with a distinctive flair to create "stick figures with an attitude". The set consists of approximately 11,000 symbols.

6513	Windows CD-Rom	£99
6514	5 user licence	£199
6515	10 user licence	£299
6516	30 user licence	£499

Improv

Improv is a text based augmentative communication framework driven by *Co:Writer* technology. With *Improv*, AAC users won't be limited to the words programmed in their devices or the words they can spell. They will have the precise word or phrase available to them by just entering a few letters - whether it's their favourite film, restaurant, hobby, or current social studies topic. These supports help your students transition into literacy based communication. And as they communicate, *Improv* learns new vocabulary, phrases and stories, then auto adapts to improve communication.

Improv does all of this with no programming required! *Improv* is software based so you can install it on any Windows based computer, tablet PC or dedicated AAC device like the Tobii's.

- Instant topic dictionaries - type any topic name and instantly have access to all of the vocabulary.
- Auto learning - learns new words, phrases and stories, then auto adapts to speed up communication.
- Saved stories and script - quick access to stories used time and again.
- Quick chat - quick greetings, positive responses, negative responses, farewells.
- Phrase prediction - typing "tra dow" will prompt phrases like "Let's take the train downtown!"

5687	Single user licence USB pen drive PC	£499
------	--------------------------------------	------

Clicker is the award winning literacy tool that enables pupils of all abilities to significantly develop their reading and writing skills.

Whether you are working in mainstream education or a special needs setting, *Clicker* is the perfect tool for helping all your pupils achieve reading and writing success. *Clicker* enables children to learn and progress within an easy to navigate, motivating environment tailored to their individual needs.

Clicker 6 builds on the acclaimed support features of its predecessor. It combines customisable pupil support tools that empower children to work independently, with intuitive activity wizards that make it easier than ever before for teachers to create and edit *Clicker* activities.

Features

- Quick start word processor – children are able to start working straight away!
- Primary word predictor - this intelligent predictor suggests words that fit the context of the pupil's writing.
- Enhanced picture library - over 2,500 curriculum pictures, which are available for use in documents, *Clicker Sets*, the predictor and the spell checker.
- Built-in painting tools – Crick's popular painting program, *Clicker Paint*, is fully integrated into *Clicker 6*.
- Webcam support – pupils' photographs instantly appear in their *Clicker* documents.
- Favourites list – children can save their favourite *Clicker* activities for easy future access.

- Click and edit books – enable pupils to independently create their own talking books and presentations.
- Clicker wizards - follow the step by step instructions to quickly create personalised activities.
- New editing tools - click on a cell and the toolbar instantly changes to display only the tools relevant to the item being edited.
- Faster access to Learning Grids - no need to log in, access hundreds of free resources instantly from within *Clicker 6*.

Memory Quest

This innovative software provides working memory training for learners of all ages. Training with memory games has been shown to improve arithmetic skills and verbal working memory in children with ADHD. There are eighty different exercises, as well as two different interfaces, one junior and one senior. *Memory Quest* includes:

- A unique home page for the training software with material for teachers, such as rating scales, diplomas, evaluation sheets etc., as well as research and new training programs.
- A book about working memory and working memory training by clinical psychologists Erik Truedsson and Stefan Strohmayer.
- Tools for evaluating training.
- Tools for creating unique training programs.
- The ability to import new training programs.

Splash!

Splash! is a flexible tool that enables learners with a wide range of abilities to create accurate illustrations for Maths and Science. It forms an accessible work space allowing students to carry out Maths, Science and drawing activities. *Splash!* includes full keyboard access, pointer only access or mixed mode control. *Splash Infant!*, *Splash Junior!* and *Splash Senior!* come with lots of easy-to-use resources for KS1 to KS4 Maths and KS3/4 Science. These resources illustrate the huge range and diversity of activities and features that *Splash!* offers children 4 to 16 and older.

If you can't use pencils, pens, and crayons or struggle to draw or measure things accurately, or find writing and setting out numbers hard and things won't go down on paper in the way that you want them to, then *Splash!* can help. There are a variety of packs and a 30 day free trial available.

See www.inclusive.co.uk for full details.

6934	Infant Suite (KS1) single user PC	£105
6935	Junior Suite (KS2) single user PC	£105
6936	Senior Suite (KS3) single user PC	£105

NumberShark 4

The latest version of this popular software helps anyone improve their basic numeracy. It addresses many of the difficulties which

lead students to dislike maths. These include poor short term memory, limited attention span and poor sequencing skills. The program features forty five games to teach and reinforce numeracy in ways which add meaning and understanding to numbers. The games are played with your chosen units of work (topic), each of which generates a new set of sums every time you play. The 500 topics offer a finely graded structured course, isolating one new level of difficulty at a time. Personalised learning can be supported by setting up individual programs of work and records of student activities are kept. Worksheets can be printed in a variety of formats. Variable speeds and other options meet different skill levels.

1273	10 user copy	£440

For further multiple user options, see www.inclusive.co.uk

Inspiration V9

For visual mapping, outlining, writing and making presentations. Brainstorm ideas, structure your thoughts

and visually communicate concepts to strengthen understanding with the diagram and map views. To take notes, organise information and structure writing for plans, essays and reports, use the integrated outline view. With *Inspiration's* Presentation Manager, transform your diagrams, mind maps and outlines into polished presentations that communicate ideas clearly. Supports the planning and writing of essays, stories, letters, reports, websites, presentations and projects. Export documents as PDFs - ideal for using resources within a VLE.

6033	Win/Mac CD-Rom single user	£49
------	----------------------------	-----

More licences available, see www.inclusive.co.uk

Kidspiration

- Pupils can develop thinking skills using pictures, words and numbers.
- Picture view allows pupils to represent their ideas using symbols. Over 3,000 symbols are included and you can create your own.
- Writing view allows pupils to begin the writing process by expanding their visual thoughts. Word guide dictionary and thesaurus included.
- New maths tools develop number sense, spatial reasoning and understanding of the four basic operations.
- Full audio support - pupils can hear their work read aloud.
- Easy to use, intuitive interface.

Out and About 3

Gadgets at Home

Users can listen, watch, discuss and even record their own commentary whilst learning about household gadgets including the cooker, microwave, washing machine, iron, toaster

and kettle. Activities include reveal, sequencing, spot the difference, spell the word and word search. As with the other *Out and About* titles, it has built-in record keeping, printable resources, switch, symbol and audio support.

3176	Win/Mac CD-Rom	£75
3177	5 user copy	£150
3253	Site licence	£450

Out and About 4

Money and Finance

Based around absorbing real life videos with follow up activities and supporting resources, this program reinforces existing money skills and introduces new ones. Areas covered include personal budgeting, online shopping, basic money skills, money recognition, ordering of money and change. There is a fun quiz on money matters and the program covers vocabulary such as PIN, receipt, wages and so on.

3178	Win/Mac CD-Rom	£75
3179	5 user copy	£150
3254	Site licence	£450

Lifeskills: 24 Hours a Day

Aimed at older learners with moderate learning difficulties. Users are presented with up to thirty one different everyday scenarios in which they make decisions. Choose food in the cafe, visit the Post Office or go shopping. Pay for the goods. Instruction is enabled through a wide range of support including *Rebus* symbols, *Makaton* sign language and *Signalong* signing. Input can be through a mouse, touch monitor or switches.

0687	Windows CD-Rom	£49
0688	5 user copy	£149
0689	Site licence	£229

Personal Success

Personal Success is a multimedia program targeting essential activities. They are organised into six topics: personal care for women, personal care for men, personal care for everyone, dressing for success (women), dressing for success (men) and clothing care. Organise them to reflect a naturally occurring sequence - washing hands, brushing teeth, flossing, mouthwash. Use printouts to rehearse activities and as picture cues at the actual location, like the bathroom or bedroom.

1062	Win/Mac CD-Rom	£89
1063	5 CD pack	£199

Touch Type 2

This typing tutor works at your own pace. See the letter, hear it, then type it. A full on-screen picture of the keyboard teaches the home keys first, then introduces the others through a range of exercises. The program also includes a monitoring system to show where you need practice. *Touch Type 2* is suitable for all ages and is adaptable for special needs. The program speaks the next letter to be typed and has the option of changing the font, font size and font colour - suitable for visually impaired users.

0185	Win/Mac CD-Rom	£39
------	----------------	-----

For further multiple user options, see www.inclusive.co.uk

First Keys 3

First Keys 3 is the latest version of the popular *First Keys* program. A friendly introduction to the keyboard that uses speech, phonics and Widgeit symbols in colourful and engaging missing letter exercises to teach literacy skills. An array of exercises stimulate interest and develop vocabulary as well as keyboard awareness. Make spelling exercises to support literacy activities, curriculum topics or personalised learning.

For further multiple user options, see www.inclusive.co.uk

KAZ Typing Tutor

This scientifically researched method allows students to start typing more quickly than traditional methods and the main A to Z keys can be mastered in an average time of 90 minutes. Speedbuilder phrases and paragraphs extend the learning process to cover the ancillary keys and to develop typing speed.

6566	Win/Mac CD-Rom	£39
------	----------------	-----

For further multiple user options, see www.inclusive.co.uk

Five Finger Typist

A complete set of typing lessons for both the right and left hand. It teaches the keyboarding technique for single handed touch typing on the QWERTY keyboard. Users learn the home position, then complete exercises which introduce new keys and revise keys already learned. The application remembers the last lesson worked on in a user's document file. Lessons are graded, starting with simple exercises. An animated hand graphic on the screen shows the correct hand movement as keys are typed.

0597	Win/Mac CD-Rom	£51
------	----------------	-----

Nessy Fingers

This touch typing program also helps children improve their spelling skills. Nine fantastic games using real words and sentences provide all the motivation needed!

Explore the land of Ness and battle dragons and ghosts. Crush Rocky under a giant snowball. Score goals against the boss gorilla or win trophies in the hall of fame. The key positions are taught in the sequence of the alphabet. Set personal speed and accuracy targets. Configurable, with nine levels of difficulty.

3168	Windows CD-Rom (home user)	£17
------	----------------------------	-----

3167	5 user CD-Rom (network)	£75
------	-------------------------	-----

IT Mouse Skills

Teaches the many applications of the mouse in an entertaining and visually appealing atmosphere. Move the mouse over an object, drag and drop, drag along a path and practice using drop down menus. Various clicking activities are included, such as clicking anywhere, click timing and double-clicking. Introductions to each activity are provided and the successful completion of a task is met with a range of pleasing rewards. Adjust the difficulty level and change the background for high contrast; ideal for low vision.

ChooseIt! Ready-mades

The ChooseIt! Ready-mades Series are a huge collection of educational activities we have created using our popular title ChooseIt! Maker 2 (see page 100). Choose from 21 titles covering Literacy, Numeracy and Science, offering comprehensive coverage of the Foundation and KS1 curriculum.

What can ChooseIt! Ready-mades do for my learners?

Ease of use

- Really easy to use for both teacher/carer and children.
- A simple way of finding what you need for any lesson. Easy to show other adults.
- Children focus on the learning objectives, not the computer.

Children's achievement

- Learning is motivated through positive reinforcement.
- Perfect for all children who need extra practice with understanding key concepts.
- Performance statistics are available and ready to print.

Flexible and fun

- Lots of pictures, music and speech support.
- Great for use with a group on a big screen, or one to one in a corner.
- Activities can be personalised using *ChooseIt! Maker 2* (page 100), or simply use each CD on its own.

How do the ChooseIt!s provide extra support?

The ChooseIt! Ready-mades can be used successfully by all children, but have special features for children who need extra support.

For struggling learners

Easy to use - children can focus on the task rather than on how to use the computer.

For children with coordination difficulties

Large buttons are easy to target with a trackerball or touch screen.

For children with autism

Consistent presentation with positive reinforcement means children are not distracted, confused or upset. Used with a group, they are fantastic for encouraging turn taking.

Physical difficulties

The *Ready-mades* are accessible using switches.

Visual impairment

Each CD has clear pictures and full speech support with a real voice.

ChooseIt! Ready-mades are designed by teachers and ICT coordinators with over 20 years experience in primary and special schools.

Numeracy Series

These activities map directly to the Foundation Stage, P-Scales or National Numeracy Strategy targets.

Choose from eight titles:

- Early Number.
- Number 0 to 5.
- Number 5 to 10.
- Number 0 to 100.
- Foundation Shape, Space and Measure.
- Key Stage 1 Shape, Space and Measure.
- Time.
- Money.

Buy all eight and save £33!

The full set contains a total of 237 activities and over 6,000 pages!

n/a	Windows CD-Rom (each title)	£34
2978	All eight titles single user CD-Rom	£239

Literacy Series

Structured to support the Primary National Strategy, Letters and Sounds. **Choose from eight titles:**

- Listening Skills.
- Initial Letters.
- Initial Blends: Letters.
- Initial Sounds.
- Initial Blends: Sounds.
- Alphabet.
- Everyday Words.
- Tricky High Frequency Words.

Buy all eight and save £33!

Each CD has over 25 activities with multiple pages. The full set has over 250 activities and 5,000 pages!

n/a	Windows CD-Rom (each title)	£34
3618	All eight titles single user CD-Rom	£239

Science Series

Mapping directly to Foundation Stage Knowledge and Understanding of the World and the National Curriculum Key Stages 1 and 2. **Choose from five titles:**

- Foundation Living Things.
- Materials.
- Light, Sound and Space.
- KS1 Living Things.
- Forces and Electricity.

Buy all five and save £21!

The full set has 151 activities and nearly 3,000 pages!

n/a	Windows CD-Rom (each title)	£34
4305	All five titles single user	£149

Titles are available to purchase separately or as multiple users, site licences or Series bundles.

Please specify titles when ordering.

See www.inclusive.co.uk for full details of all titles and purchasing options.

NEW ChooseIt! Apps - covering Numeracy, Literacy and Science! (see page 11).

Let's Go To Town

A superb story program with nine interactive scenes. *Let's Go To Town* encourages decision making and discussion of real life activities at a basic level. It suits students of all ages, principally with severe learning difficulties and/or little reading ability. The large, eye catching animations are designed with the visually impaired student in mind, and fun for all of us! The limited interaction is very useful for students learning scanning using one or two switches.

1073	Windows CD-Rom	£59
1074	5 user copy	£109
3163	Site licence	£169

Touch Cats

- Playful, lifelike, interactive cats.
- Independent play.
- Touch, switch(es) or mouse.
- Five action packed scenes - house, alleyway and garden.
- A journey of discovery.
- Drag the cat and it walks with you.
- Hit a switch and the cat explores on its own.
- Language, storytelling, adventure, fun and enchantment.

For details & demonstration videos see www.inclusive.co.uk

3797	Windows CD-Rom	£49
3798	5 user copy	£98
3799	Site licence	£147

Let's Go To The Seaside

Let's Go To The Seaside is a delightful on-screen story book with decision making activities and animations to link the story together. It encourages the discussion of preferences and promotes life skills. Each page has a limited number of things to click on, making it easy for those learning switch scanning skills. *Let's Go To The Seaside* is also useful for developing early reading skills, recognising patterns and matching sizes and colour.

1580	Windows CD-Rom	£59
1581	5 user copy	£109
3162	Site licence	£169

Touch Balloons

Great fun on the touch monitor or Inclusive Interactive Plasma Screen. Also use a switch, mouse or alternative pointing device. Alter the colour, speed and number of balloons; choose bold or pastel colours to develop visual skills. You can even change the background - add your own pictures.

0736	Windows CD-Rom	£35
0739	Additional user licence	£12

Touch Screen Bundle

This great value software collection helps teach touch skills at all levels. Software is supplied as single user copies.

Big Bang

Provides engaging activities at a very early 'whole hand' cause and effect level. See page 95.

Target and Touch: Patterns

Targeting activities using simple, vivid, high contrast patterns, shapes and music. See page 95.

Touch Balloons

Simple, progressive targeting activities. Touch the balloons to pop them. See above.

Target and Touch: Music

This program is ideal for people with visual and perceptual difficulties. See page 95.

Choose and Tell: Nursery Rhymes

Simple decision making activities that support emergent literacy skills. See page 102.

4752	Windows CD-Rom	£249
------	----------------	------

When purchasing with a touch monitor, touch screen bundle Win/Mac CD-Rom £225.

Big Bang

Big Bang has attention grabbing full colour pictures dancing and swirling around the screen, along with a choice of lively music and sound effects.

Four activities develop visual skills associated with location (finding something), fixing (holding attention on an object) and tracking (following movement). Animations include fireworks, bubbles, frogs, jet planes and acrobats. Use switches, touch screen, keyboard or mouse.

Big Bang Pictures

Big Bang Pictures has twenty animated pictures of every day objects displayed in only two colours, for maximum visual effect. The eye catching animations have been designed with three

levels of visual complexity, together with colour options. The program includes exciting music and sound effects, you can also use it with your own music which can also be used at an experiential level to encourage looking and listening.

3621	Windows CD-Rom	£59
3622	5 user copy	£109
3623	Site licence	£169

Big Bang Patterns

Another CD in the *Big Bang* collection for those working with people with more complex special needs. *Big Bang Patterns* contains over sixty different animations in two bright

colours, with lively music and sound effects to encourage response and interaction. The animations are bright, bold and attention grabbing to encourage the user to watch and interact with the computer. It is designed for working with people with more complex special needs.

3624	Windows CD-Rom	£59
3625	5 user copy	£109
3626	Site licence	£169

Target and Touch: Patterns

A range of activities with different styles of animated patterns and music rewards - bright colours contrasting with a black background make them ideal for users with visual difficulties. The different styles and movements of the patterns provide a wide range of different visual experiences to encourage users to look at the screen. For full details please visit www.inclusive.co.uk

3515	Windows CD-Rom	£59
3516	5 user copy	£109
3517	Site licence	£169

Target and Touch: Music

Touch screen training activities with a cast of twenty musicians, from classical to fantasy, with a great selection of music. It offers lots of opportunities for language development and listening skills. Bright characters on a dark background really stand out, making this program ideal for people with visual and perceptual difficulties.

SwitchIt! Extra Series

These motivating cause and effect activities are ideal for early language work. Press a switch and see flash cards appear, a picture build up or watch an animated story unfold. For keyboard, mouse, whiteboard or switch.

Each of these CDs has additional on-screen activities and a wide selection of worksheets, picture builds and flash cards to print out. For details see www.inclusive.co.uk

SwitchIt! Bob the Builder™

Have lots of fun adventures with Bob and Wendy, Scruffy and Spud, Farmer Pickles and Bird, Dizzy and Scrambler, Travis, Scoop, Benny, Lofty, Muck, Roley and Pilchard. This switch accessible program includes computer flash cards, pictures to build and animated stories, all on the Bob the Builder™ theme. Use with keyboard, mouse, touch screen or switch.

Bob the Builder™ ©2006 HIT/K Chapman. This software is available for Windows 2000 and XP only and is available in the UK only due to licencing arrangements. We are delighted to donate all proceeds from this software to the new Children's Hospital Appeal in Manchester. See www.rmchcharity.org.uk for further information. **We have raised over £77,000 for the appeal so far!**

 Bob the Builder™ and other characters are used with the kind permission of HIT Entertainment.

SwitchIt! Technology Extra

This is the latest title in the popular SwitchIt! software series, covering twelve everyday technologies, sometimes with unexpected results! We can sympathise with the character trying to turn on their television when faced with a selection of

remote controls, and everyone has had a disaster with overloaded supermarket carrier bags! We are sure that lots of classroom discussion will be encouraged with everyone sharing their experiences about photo booths, car washes, vending machines, lifts, mobile phones and more – great as preparation or follow up for a visit. Use with keyboard, mouse, touch screen or switch.

5697	5 user copy	£129
5698	Site licence	£189

SwitchIt! Sports Extra

This *SwitchIt!* program contains twelve animated stories demonstrating different sports, plus flashcards and animations for cause and effect work.

Watch the footballers use teamwork to score a goal. Find out why going jogging is good for you. Sprinting, rounders and

other sports played in school and college are also featured. Sports played by people with disabilities are included, such as wheelchair basketball, boccia and new age curling. *SwitchIt! Sports Extra* may be used as part of the PSHE curriculum to promote healthy living skills. Use with keyboard, mouse, touch screen or switch.

3640	Windows CD-Rom	£69
3641	5 user copy	£129
3642	Site licence	£189

SwitchIt! Farm Extra

Lots of farm animals and farm activities. Cow and calf, sheep and lamb, hen and chick, and many more.

2140	Windows CD-Rom	£69
2141	5 user copy	£129
3229	Site licence	£189

SwitchIt! Hygiene Extra

Includes hair care, showering, cleaning teeth, clean clothes, food hygiene and being well dressed. A great way of covering PSHE.

2663	Windows CD-Rom	£69
2664	5 user copy	£129
3230	Site licence	£189

SwitchIt! Weather Extra

Looks at the sun, wind and rain and their effects: keeping warm, keeping cool and phenomena like rainbows and thunderstorms.

2136	Windows CD-Rom	£69
2137	5 user copy	£129
3228	Site licence	£189

SwitchIt! Christmas Extra

All the joys of the festive season! Build a snowman, pull a cracker, decorate the tree and wait and see if Santa Claus will pop down the chimney.

2120	Windows CD-Rom	£69
2121	5 user copy	£129
3226	Site licence	£189

SwitchIt! People Extra

All about the people we see every day. See how the nurse, lollipop lady, postman and checkout assistant do their jobs.

2124	Windows CD-Rom	£69
2125	5 user copy	£129
3227	Site licence	£189

SwitchIt! Transport Extra

See a rocket launch, go on an aeroplane and experience an exciting helicopter rescue. Also includes a ferry, car, boat, cherry picker, school bus, taxi and train.

3000	Windows CD-Rom	£69
3001	5 user copy	£129
3232	Site licence	£189

SwitchIt! Dinosaurs Extra

Shows dinosaurs' behaviour, their habitat and how they hunt or forage.

3004	Windows CD-Rom	£69
3005	5 user copy	£129
3233	Site licence	£189

SwitchIt! Wildlife Extra

Looks at different habitats, the kind of animals that live there and their characteristics, behaviour and diet. Includes mammals, birds, insects, reptiles and fish.

2739	Windows CD-Rom	£69
2740	5 user copy	£129
3231	Site licence	£189

Stages of Switch Use

Switch users need a wide range of learning materials to help develop their skills. These programs can also be used with a plasma screen or whiteboard, touch monitor or mouse.

Cause and Effect...

First, the learner needs to be aware of the relationship between their switch press and the resulting reward. Some grasp this immediately; others need lots of practice with a variety of activities.

Switch Timing...

Learning to press the switch at the right time is a very big step in switch operation. It requires the motor and cognitive skills to operate the switch and an understanding of the task.

Choosing...

The next stage of switch control is selecting required items. This involves a scanning process controlled by one or two switches. It enables access to a wider range of curriculum material.

Switch Skills 1

This collection of easy switch timing activities is fun for all ages. The exciting themes provide all the motivation needed to help students who understand cause and effect to develop more disciplined switch use. It also encourages speaking and listening and helps develop concentration skills. The bright, clear graphics are

suitable for those with visual impairment and there is lots of sound and music too. Activities include racing cars, gorilla and fruit, soccer shoot, traffic lights, catch the crocodiles and sunflower. Press when you see a car to make it race, or when the bee reaches the middle of the flower. The Monster House activity provides an introduction to switch scanning. Feedback and teacher options are provided.

1586	Windows CD-Rom	£59
1587	5 user copy	£109
3224	Site licence	£169

Switch Skills 2

Twenty activities at an elementary level. Press the switch or the touch screen when a big, bright object appears and see an animated reward. Exciting music promotes interest. Higher level activities require more visual discrimination, although most can still be played successfully by those with severe visual impairment.

Configurable options allow you to meet individual needs or develop learners' skills in small steps. Four activities provide opportunities for creative and experimental play by early switch users, e.g. the spray can zigzags over a wall and sprays paint when you press the switch. Topics range widely and should appeal to a wide range of ages. Try out Gopher in a Drainpipe and Mystery Egg at www.helpkidzlearn.com

4284	Windows CD-Rom	£59
4285	5 user copy	£109
4286	Site licence	£169

Switch Skills 3

Fifteen activities at a higher level than *Switch Skills 2*, split into four sections. The first section features six activities with a large target, for example Splat the Clowns - watch a clown move across the screen and throw a custard pie at him when he reaches the middle. Other games of a similar nature have

themes appropriate for older learners. The next section has four activities which are more demanding, with smaller targets in different places on the screen. For example, lighting fireworks. A set of music activities allow learners to experiment with sound whilst learning to choose using a switch. There are three exciting video games, such as Jungle Adventure.

4287	Windows CD-Rom	£59
4288	5 user copy	£109
4289	Site licence	£169

Switch Skills - Scanning

Switch Skills - Scanning is a set of twenty two simple and motivating switch activities. It is designed for students who are learning how to use switches to make choices, either within software or scanning communication devices. The activities can be used with one or two switches. The activities are split into

five sections with increasing levels of skill and complexity in very small steps. These begin with free choice activities that allow experimental play. More demanding tasks with specific targets are then introduced. The CD features a wide range of themes including music groups, rockets, a funfair, trains, farm and treasure island, and is part of our popular *Switch Skills Series*.

4829	Windows CD-Rom	£59
4830	5 user copy	£109
4831	Site licence	£169

Switch Skills Champions

Features five sports that are included in the Olympics or Paralympics. For one or two players - useful for developing turn taking skills. Try basketball, volleyball, boccia, ice hockey or hurdles. You can change the difficulty level for each player. Includes a simple training activity for early learners. Just wait for a player to

appear on the screen, then press the switch to win a medal. Accessible using a switch, mouse, keyboard, touch monitor or whiteboard.

All proceeds from this software are proudly donated to the Leonard Cheshire Disability charity. **We have raised over £20,000 for the appeal so far!**

4197	Windows CD-Rom	£59
4198	5 user copy	£109
4199	Site licence (Windows only)	£169

Switch Skills for Two Set 1

This CD contains sixteen activities in carefully graded sections. It provides an accessible environment to encourage the learner to move beyond the stage of cause and effect. Thinking, experimenting, observing and interacting are encouraged by providing simple activities that delight and engage. For example, in the Two Objects

section, choose to press the left switch (or spacebar) to make the ballerina dance beautifully, or the right switch to let the monster do his crazy dance. Or in Interacting Objects, choose to control a frying pan to try to hit the gopher. There are spacemen to jump into rockets and blast off, basketball players to help shoot baskets, a crocodile to be woken up and fed, musicians to perform and much more.

3627	Windows CD-Rom	£59
3628	5 user copy	£109
3629	Site licence	£169

Switch Skills for Two Set 2

Eleven more activities for experimenting and progressing towards effective scanning skills. Also suitable for two learners as a basis for cooperative play. Build Up promotes the use of one switch to add items to the screen, with the second switch used to start the action or watch the animated reward. Build a tin can tower

and knock it down, make a rocket and launch it, blow up a balloon until it pops, or sit the children on the roller coaster and start the action. Move and Get activities are designed to move learners towards the skills required to use, for example, a scanning communicator. Activities include loading crates onto trucks, feeding the croc, dance partners and passing the ball along a line of basketball players to shoot.

3630	Windows CD-Rom	£59
3631	5 user copy	£109
3632	Site licence	£169

maker Series

All our Maker Series offer a simple to use framework for making personalised teaching and leisure activities. Add your own images, text and sound to meet the needs of your students. Activities can be created in minutes using our intuitive tools, plus an inclusive range of access options make these programs suitable for many.

SwitchIt! Maker 2

- Make your own talking books in a matter of minutes with *SwitchIt! Maker 2*.
- Press a switch to see a picture, photo or video clip with sounds and text (also works with mouse, touch monitor or whiteboard). Press the switch again to turn the page and see more.
- Use your own digital images or import pictures and sounds from the Internet.
- Includes a library of over 1,500 pictures, sample videos and music, including a selection of *PCS* and *Rebus* symbols.

Use *SwitchIt! Maker 2* for:

Making it motivational - pop music videos, silly sounds, pictures of Thomas the Tank Engine or motorbikes - put anything in that will get you interested and interacting!

All about me - keep a meaningful diary or communication passport. Reinforcing vocabulary - put a photo/picture with the spoken word and text to help learn new words.

Sequencing tasks - make step by step instructions with photos of the situation.

Talking photo album - share a multimedia record of your holiday or trip.

Story telling - make a simple story book that can be read independently.

Speaking your mind - use it as a simple communication tool. Use one switch to scroll through the pages of choices and a second switch to speak out your choice. Use it in the classroom or day centre to tell others your preferences (e.g. in person centred planning).

1796	Windows CD-Rom	£79
1797	5 user copy	£149
3236	Site licence	£229

ChooseIt! Maker 2

- Make your own choice-making activities in minutes.
- Use your own pictures, photos, sounds or text, or pick from the library of over 1,500 files, including a selection of *PCS* symbols.
- Make the activity as simple or as complex as you like, choosing from two to six items.
- Have one or more correct answers, spoken or written instructions and your choice of reward.
- A great introduction to simple switch scanning (or use a mouse, touch monitor or whiteboard). Auditory scanning is included too.

Use *ChooseIt! Maker 2* for:

Assessment - use the computer to make assessment more motivating. Great for students who struggle with traditional picture tests. Use familiar photographs or appropriate pictures to help assess language skills, number concepts etc.

Quizzes - make learning fun, with everybody able to participate. Great on the whiteboard or plasma screen.

That's the one I want - have free choices for activities with no wrong answers! Vote for your favourite pop star, which story should be read or where to go today.

Language comprehension - match up with talking books made in *SwitchIt! Maker 2*. Can they answer the questions correctly or match the written word with the picture?

Visual impairment - create matching and choice activities which enables the choices to speak out. The user can then listen and press the switch to make their choice.

3150	Site licence	£229

NEW

ChooseIt! Maker 3 Online is now available - see pages 8-9

NEW

SwitchIt! Maker 2 Older Learners Edition

SwitchIt! Maker 2 Older Learners Edition has all the benefits of *SwitchIt! Maker 2* but also has an interface, example activities and graphics library that are specifically designed for older learners.

4274	Windows CD-Rom	£79
4275	5 user copy	£149
4276	Site licence	£229

SwitchIt! Jigsaw Maker 2

It's easy to make jigsaws of family members, pop stars, favourite characters or anything which is motivating. There are four levels of complexity to provide skills progression.

1950	Windows CD-Rom	£79
1951	5 user copy	£149
3235	Site licence	£229

Slideshow Maker

Makes it easy for the busy SEN or Early Years practitioner to make simple slideshows with accompanying music for early switch users. The slideshows can also be used with a touch screen, plasma or mouse. Simply choose a set of pictures, add a music track and you're away. Slideshows can be started and stopped using one or two switches. This is useful for teaching two switch control or taking turns, and is invaluable for learners with PMLD or those learning to make choices using

a switch or by pointing. The slideshow can also be given a timer so it automatically stops after a certain time. For early choice making, a picture board can be set up with between two and nine pictures to choose from by pointing, switch scanning or using the mouse. Each picture starts a different slideshow, then the picture board is shown again. This is good for turn taking with a group and can also be used with the IntelliKeys keyboard. More able learners who can use a mouse or touch screen will enjoy making their own slideshows with the editor, which is free of clutter and the buttons are large and have symbols. You can get pictures from a camera, the Internet, or even a webcam, then change their order in the slideshow using simple drag and drop. Full export features allow you to share slideshows with colleagues, or you can give them to learners to take home and play.

4271	Windows CD-Rom	£79
4272	5 user copy	£149
4273	Site licence	£229

SwitchIt! Facemaker

Add your own photos of children, teachers, parents (anybody!) to *SwitchIt! Facemaker* and decorate them with hats, beards, glasses, earrings and more. Nearly 100 features give you thousands of combinations, engaging students in creative exploration and experimentation.

2144	Windows CD-Rom	£79
2145	5 user copy	£149
3234	Site licence	£229

Card Maker

Card Maker allows you to create cards and invitations. Choose one of twenty eight different cards with occasions including Christmas, birthdays, Easter, anniversaries and more. Choose one of eighteen occasions for the invitations and customise each one.

4901	Windows CD-Rom	£79
4902	5 user copy	£149
4903	Site licence	£229

Choose and Tell: Nursery Rhymes

- Choose from Humpty Dumpty, The Grand Old Duke of York, Old Mother Hubbard, Old King Cole or Baa Baa Black Sheep.
- Take Baa Baa Black Sheep off to the beach on a space rocket, or go to the castle with Humpty Dumpty on his green boat.
- Great for getting children to use their imagination and think about creating a narrative.

1324	Windows CD-Rom	£59
1325	5 user copy	£109
3147	Site licence	£169

Choose and Tell: More Nursery Rhymes

- Choose from Little Bo Peep, Mary Mary Quite Contrary, Little Jack Horner, Yankee Doodle or Pussy Cat.
- Decide where to go and what to do.
- Great for getting children using their imagination.
- Lots of fun adventures to enjoy, with delightfully comical results.
- Lots of images are available on the CD for printing in colour or for children to colour in.

3471	Windows CD-Rom	£59
3472	5 user copy	£109
3473	Site licence	£169

Choose and Tell: Legends

- Embark on a magical adventure based on exciting legends from different cultures.
- Choose from Jason, Sir Lancelot, the Pharaoh, Hiawatha or Rama.
- Packed with fun decisions to make and challenging puzzles to solve.
- Encounter monsters and answer questions relating to the Key Stage 1 curriculum.
- Configurable difficulty level.

1754	Windows CD-Rom	£59
1755	5 user copy	£109
3148	Site licence	£169

Choose and Tell: Fairy Tales

- Choose from Snow White, Beauty, Cinderella, Princess Aurora (also known as Sleeping Beauty) or Rapunzel.
- Travel in a pumpkin coach, on a funky moped or groovy rollerblades.
- Will you visit a fairy tale castle or go to the supermarket?
- Will your heroine find her Prince Charming - or will a magical kiss lead to a different surprise? Of course, they all live happily ever after.

1791	Windows CD-Rom	£59
1792	5 user copy	£109
3149	Site licence	£169

Choose and Cook

An easy, fun, story based program about preparing food and being in the kitchen. Aimed primarily at non-readers with severe learning difficulties of all ages, and perfect for mainstream primary classes. Pupils choose a meal to make then find the ingredients in the kitchen.

They are taken through the cooking and preparation process, where they choose the correct utensils. Finally, they invite a friend and enjoy the meal together. This program can be used in tandem with real cooking lessons. The simple recipes have been chosen because they can all be easily produced in the kitchen.

3403	Windows CD-Rom	£59
3404	5 user copy	£109
3405	Site licence	£169

Counting Songs 1

Ideal for Early Years.

This fun and stimulating software is aimed at children just mastering early numbers. It features ten popular, traditional songs, seven of which have been re-written to count up from 1 to 5. Lively tunes and lovable animated characters engage the children, encouraging them to count along with the music. The songs are offered in three progressive stages:

- Playing all the way through.
- Counting before each verse.
- Asking the child to count before each verse.

A set of accompanying activities consolidate and expand the childrens' counting skills. These are also offered in three progressive stages: simple counting of one character after another; counting characters along a number line and identifying sets of objects. The program can be used with a touch screen, mouse or switches.

4911	Windows CD-Rom	£59
4912	5 user copy	£109
4913	Site licence	£169

Counting Songs 2

Ideal for KS2.

Ten original, contemporary style songs with entertaining animations, designed for KS2 children with learning difficulties. Seven of the songs count up from 1 to 5, whilst three count down. May also be suitable for some Early Years learners.

4914	Windows CD-Rom	£59
4915	5 user copy	£109
4916	Site licence	£169

For further information, videos and reviews visit www.inclusive.co.uk/countingsongs or speak to us on 01457 819790

MyBoard

Ideal for providing visual prompts for the language we use in the classroom. Pictures and text can speak, giving extra motivation and reinforcement and making *MyBoard* scenes more interactive and inclusive. Target specific speech and language skills for individuals or make relevant group activities.

- Ideal for group use on the plasma, or use it on the computer with a mouse.
- Make activities for your learners or just let them be creative!
- Lots of flexible, easy to use tools and resources.
- Make your own sorting and sequencing activities, literacy games, numeracy tasks, 3D construction sets, colouring books, dot-to-dots, board games, design and technology activities, maps, circuit diagrams and all sorts of scenes to promote creative play. The list is endless.
- MyBoard includes a wide range of sample activities to adapt or to get you started.
- Over 2,000 sample pictures are provided. You can also use images from your digital camera, the Internet or a webcam.

3185	Windows CD-Rom	£79
3186	5 user copy	£149
3187	Site licence	£229

ReactTickles 2

- Inspired by real world objects that children love to manipulate such as slinkies, lava lamps, spinning tops and coins, *ReactTickles* provides an engaging, accessible computer environment for spontaneous imaginative play and learning.
- *ReactTickles Creativity Box* resources are structured to provide an easy to use, flexible guide to integrating the software into the curriculum in a manner that is rewarding and fun. Teacher and pupil resources can now be accessed directly from within the application.
- *ReactTickles* are highly motivating and have been shown to help children develop concentration and attention skills, as well as encouraging sharing and imaginative play.
- Reactive colours encourage those with autistic spectrum differences and learning disabilities to use the computer. It helps them develop mouse, keyboard, programming and screen skills. Fully switch enabled.
- Use with an interactive whiteboard, microphone, mouse or keyboard.

4067	Site licence	£199

2014 Inclusive Information Days

Our free Information Days are a great opportunity for educators, therapists, advisors and others working in the field of special needs to come together and see how technology is changing the lives of all learners. Delivered by members of our respected and experienced Information Team, these one day sessions are packed with practical ideas and advice. Why not watch our Information Days video or download our Information Day leaflet at www.inclusive.co.uk/events

FREE

We offer two types of Information Day

Communication and Learning Through Technology (CLTT)

Focusing on the use of ICT, including tablets, to support the communication, learning and leisure needs of children and young people with severe and complex special needs.

- Explore access to technology from switches to eye gaze.
- Engaging experiential learners.
- Develop cause and effect understanding.
- Make effective use of a range of simple communication devices.
- Create motivational and personalised resources.

From iPads to Eye Gaze

This new day focuses on two of the most exciting recent technologies in special needs, the iPad and eye gaze. In the morning we will look at using the iPad, Apps to use for those with special needs, accessories such as switch interfaces and specialised cases, through to making resources for iPad users. In the afternoon we will look at eye gaze technology, from assessment and cause and effect understanding through to using eye gaze for communication, learning and leisure.

There is such a thing as a FREE LUNCH!

Inclusive Webinars

Take part in one of our new Interactive Webinars without even leaving your desk. These are fully interactive, live events; you can ask the presenter questions just as if you were in the room with them. All you need to take part is a computer connected to the Internet with speakers or headphones so you can hear the presenter speak.

You can even use an iPad or Android tablet to take part as long as you have an Internet connection. After the Webinar you'll have access to a recording of it so that you can watch it again and again.

Inclusive Webinars run for about 30 to 45 minutes. They cover Inclusive's resources such as HelpKidzLearn and *ChooseIt!* Maker 3 and how to best to use them and subjects such as eye gaze and iPad accessibility.

There is even a regular monthly What's New Webinar where you can see the latest hardware and software resources available From Inclusive Technology. A great way to keep up to date.

FREE

Check www.inclusive.co.uk for further information on upcoming webinars.

Terms and Conditions

About us

At Inclusive Technology Ltd we believe it is important to give full support and backup to all our customers. This starts with helping you get the right resources for your learners, and at the right price.

Delivery Charges

UK Orders

UK orders over £40.00 will be subject to a standard carriage charge of £7.50 plus VAT, UK orders under £40.00 will be subject to a standard carriage charge of £4.00 plus VAT. UK orders are sent via courier 24hrs (1 business day) and we aim to despatch within 3-5 working days from date of order. There can be some occasions when despatch can take a little longer. If your order is urgent please telephone for time scales. *Tobii hardware incurs a delivery charge of £17.00 plus VAT. Some larger items, such as monitors, will incur a higher delivery charge of £10 plus VAT*. Orders for these items need to be placed by telephone or purchase order.

European Orders/International Orders outside Europe

Orders within Europe are sent via courier Euro Priority. International orders are sent via courier Global Priority. We aim to despatch as soon as possible from the date orders are placed (within 3-5 business days), however, dependent on stock availability, there are rare occasions that this may take a little longer. Delivery is then estimated to take up to 7 business days from date of order. If your order is urgent please telephone for time scales.

If you require any further information or have any queries at all about our delivery terms, please do not hesitate to contact us by telephone on **+44(0)1457 819790**.

Payment Methods

Educational and health establishments (UK only and part of a Local Authority)

We accept purchase orders from educational and health establishments. Invoices for orders placed using a purchase order will be sent out with the products, or posted separately to the invoice address if a different delivery address is specified. Please fax your purchase order to **01457 819799** or email to **sales@inclusive.co.uk**

Private Customers (and orders from non-UK residents)

Payment for orders from private customers and all non-UK residents is required prior to despatch and can be made by a credit/debit card registered to your billing address or bank transfer. UK residents can also pay by cheque and non-UK residents by sterling bank draft.

VAT Charges

All prices shown in this catalogue and on our website are exclusive of VAT (sales tax). VAT (sales tax) is currently charged at 20% and will be applied to every order unless: You are a business elsewhere in the European Union and can provide us with your Sales Tax Number (the equivalent of the UK VAT Registration number); Reside outside the European Union or you are subject to VAT relief – see below for further details.

VAT Relief - for people with a disability

Certain products that we sell can be purchased at a price exempt from VAT. This is known as VAT relief and is subject to the following rule: **The product has been specifically designed for use by people with a disability and is being purchased by, or on behalf of, someone who is disabled.**

When placing an order online or via the telephone for products which qualify for VAT exemption you can request VAT relief. For us to complete your order and take payment with VAT relief applied you are requested to complete a 'VAT Exemption' form. View our 'Guide to VAT Relief' section on our website, where you will also find more details on this subject. You can complete and submit the form online via our website, making it quick and easy to do. If the product doesn't qualify for VAT relief then you will be charged VAT at 20% as normal. Our Carriage Charge is always subject to VAT even if all the products in your order are not.

Returns Policy

We want you to have the right resources to help your students with their learning. Goods in resalable condition can be returned to us within 100 days of purchase, if in your opinion they are unsuitable for your student's learning needs. If you have honoured our 42 days credit terms (see below) we will be happy to refund your money.

Your rights to return goods are also protected under the EU Distance Selling Directive, which can be found at **www.hmso.gov.uk**

Credit Terms

Payment on orders placed with a purchase order, via either of the 'Invoice with Order' payment methods should be made within 42 days of the invoice date or 30 days if you are purchasing on behalf of a business. Details on how to make payments will be provided on the invoice.

Prices are correct at time of going to print, prices are subject to change and we reserve the right the change prices where necessary.

Please check our website www.inclusive.co.uk for the most up to date pricing.

Choose It! Maker 3

Create, edit and play personalised learning materials online and download them to your iPad or Android tablet!

See page 8

Personalised Learning

Choose It! Maker 3 is an exceptionally versatile on-line tool that allows you to create personalised learning activities for children and individuals with special educational needs and disabilities.

With access to SymbolStix and Wigit Symbol libraries and giving touch, eye gaze optimisation and full switch control it is ideal for a range of users including those with:

- Autism spectrum disorders (ASD).
- Communication difficulties.
- Language impairments.
- Developmental disabilities.
- Down's Syndrome.
- Aphasia.
- Traumatic brain injury.

How do I use Choose It! Maker 3?
